

Cooperative Parenting

Separating or Divorcing?

Increase your communication skills with your ex and improve your ability to help your children cope in a healthy way. This course looks at children's behavioral and emotional responses in a separation of parents and addresses the way parents may be affecting their children in both helpful and harmful ways. Explore your active problem areas, common reactions from kids, ways parents make it worse, and problem solving. Instructor Alison Hinson is a certified mediator and mental health professional.

**Childcare is not provided.*
