

ADHD: A Family Approach

Aaron Tabacco, RN, BSN, is a neurodevelopmental nurse specialist, training coordinator of Nursing, and researcher with expertise in family management of childhood Attention Deficit Hyperactivity Disorder (ADHD) at the Child Development & Rehabilitation Center at OHSU. Aaron is driven in part by his personal experiences as a father of adolescent sons who each live with ADHD.

Join us as Aaron discusses a family approach to supporting a child who experiences ADHD and finding health and balance amid chaos.

This workshop is designed for families and caregivers of children who experience ADHD.

Swindells Resource Center

Serving families of children
with special needs in southern Oregon
