## Construction Contractors Board Issue 78

This electronic newsletter gives Oregon contractors information on laws, policies and activities of the CCB and better business practices.

### CCB Mission:

The CCB protects the public interest relating to improvements to real property. The Board regulates construction contractors and promotes a competitive business environment through education, contractor licensing, dispute resolution and law enforcement.

### Board Members:

Rob Hernandez, Chair, White City  
Rob Yorke, Vice-chair, Beaverton  
Chuck Crump, Salem  
Dennis Schad, Coos Bay  
Jon Mangis, Salem  
Richard DeWolf, Portland  
Roger Nyquist, Albany  
Sandy Trainor, Sherwood  
Tom Skaar, Portland

Editor: Gina Fox

## 76th Legislative Session is Underway

On January 10, 2011, Oregon kicked off the 76th Legislative Assembly. The State of Oregon has a Citizen Legislature consisting of the Senate, whose 30 members are elected to serve four-year terms, and the House of Representatives, which has 60 members elected for two-year terms.

The Legislature convenes annually at the State Capitol in Salem, but sessions may not exceed 160 days in odd-numbered years and 35 days in even-numbered years. Five-day extensions are allowed by a two-thirds vote in each house.

In odd-numbered years, the Legislative Assembly convenes on the second Monday in January, to swear-in newly elected officials, elect legislative leaders, adopt rules, organize and appoint committees, and begin introducing bills. In even-numbered years the Legislative Assembly convenes in February.

Oregon's representative form of government is governed by rules, laws, and procedures. Although the process is long, complex and dominated by committees, all laws begin as someone's idea.

Contractors that want to learn more about how the legislative process works, keep up on legislation or find out how to be involved, visit <http://www.leg.state.or.us/>.

### Legislative Dictionary

The following are some common terms used during the legislative process:

**Amendment:** An alteration made or proposed to be made to a measure. Measures may be amended more than once.

**Bill:** A measure that creates a new law, amends or repeals an existing law, appropriates money, prescribes fees or takes other action.

**Do Pass:** The recommendation by a committee for passage, abbreviated as DP. DPA means "do pass with amendments".

**Drop:** Refers to submitting a committee report to the appropriate desk.

continued on page 2...

**Effective Date:** ORS 171.022 reads that except as otherwise provided in an Act, an Act of the Legislative Assembly takes effect January 1 of the year after the passage of the Act.

**Emergency Clause:** A statement added to the end of a measure which causes a the act to become effective before the accustomed date.

**Engrossed Bill:** A measure that is printed with its amendments included. It will have "A" (or B, or C, etc) Engrossed at the top which signals that the bill has changed from its original form.

**Enrolled Bill:** The final copy of the bill which has passed both houses of Legislature and has been specially reprinted for the signatures of President of the Senate and Speaker of the House. After these confirmatory signatures, the enrolled bill goes to the Governor.

**Measure:** A written document used by the Legislative Assembly to propose a law. A measure may be a bill, a memorial or a resolution.

**Readings:** The recitation of the measure's number, title and sponsor. The First reading the measure is referred to a committee by the Speaker or the President. The Second reading occurs after the measure has been referred to the committee, worked on and reported back to the floor of the house it originated in for a vote. The Third reading occurs on the floor by either house usually before the final vote.

## Changes in Oregon Lien Law

A new law sponsored by the State of Oregon, House Consumer Protection and Government Accountability Committee, (HB 3689) becomes effective January 1, 2011.

The new laws will have a significant impact on:

- Material Suppliers and Subcontractors,
- Home Builders and Remodelers.

### Material Supplier and Subcontractor Lien Rights

Material suppliers and subcontractors that provide material, labor or equipment for renovation, remodel or repair on an existing owner-occupied residence are prohibited from perfecting a lien on a home owner's property if the contractor they provided the material, labor or equipment to is unlicensed.

Contractors can help protect their lien rights by utilizing the e-Watch feature of their CCB myLicense account to monitor the licenses of contractors they subcontract to. Contrac-

## CCB By The Numbers (July-September 2010)

### Licensing:

|                                     |        |
|-------------------------------------|--------|
| Number of Licensed Contractors..... | 40,404 |
| Number of new applications.....     | 661    |
| Number of renewal.....              | 4,262  |

### Dispute Resolution:

|                                                   |     |
|---------------------------------------------------|-----|
| Number of complaints filed.....                   | 347 |
| Number of investigations.....                     | 153 |
| Number of settlements.....                        | 128 |
| Number of final orders issued<br>for damages..... | 78  |

### Enforcement/Field Investigation:

|                                     |       |
|-------------------------------------|-------|
| Complaints of illegal activity..... | 1,292 |
| Jobsite inspections.....            | 1,388 |
| Investigations opened.....          | 1,292 |
| Final orders issued.....            | 450   |
| Number of licenses suspended.....   | 157   |

### Education:

|                                                  |     |
|--------------------------------------------------|-----|
| Number of tests.....                             | 695 |
| Number of candidates passing on 1st attempt..... | 479 |

### Customer Service:

|                               |        |
|-------------------------------|--------|
| Incoming telephone calls..... | 22,257 |
|-------------------------------|--------|

tors using e-Watch are automatically notified when the status of the license they are monitoring changes. Licensed contractors can register for a CCB myLicense on the CCB website. CCB myLicense and e-Watch are an available benefit of your CCB license.

The CCB is working to expand the feature to material suppliers, or others that typically do not have a CCB license. There will likely be a small annual fee. As always, the status of a CCB license can be checked online at [www.oregon.gov/CCB](http://www.oregon.gov/CCB).

### **Contractors that build (or remodel) and sell**

Contractors that sell newly built homes or condos, or homes or condos that have had a recent, major remodel can no longer obtain as a method of lien protection, a waiver of the lien protection rights from a buyer.

In 2003, lawmakers enacted the Oregon Homebuyer Protection Act (HPA) requiring the seller of a new home, or a recently remodeled home that had \$50,000 or more in improvements, to complete a "Notice of Compliance with the HPA" form indicating the action they will take to provide protection for the buyer from lien claims.

Beginning January 1, 2011, a seller can:

1. Purchase title insurance with coverage to protect against possible liens;
2. Retain sufficient funds in the closing escrow to pay any liens;
3. Obtain a bond or letter of credit sufficient to pay any liens;
4. Obtain written waivers from subcontractors and material suppliers; or
5. Complete the sale at least 75 days after the completion of all construction.

These five options remain unchanged. The law removed a sixth option which was the ability of the seller to obtain a waiver of these protection requirements from the buyer.

The "Notice of Compliance with the HPA" form is available to download from the CCB website under Contractor Forms/ Other Important Forms.

Contractors can find more information about the Home Buyer Protection Act by visiting, [www.oregon.gov/ccb](http://www.oregon.gov/ccb). Click on Contractor Help, then Residential Contractors: Help Staying Legal.

## **Becoming certified to work on Energy Efficiency and Sustainable Technology projects**

The Energy Efficiency and Sustainable Technology (EEAST) is a new program managed by Oregon's Department of Energy (ODOE). Under the program, utility companies loan funds to customers who will use the money for energy efficiency projects based upon an energy audit. Contractors that want to work on EEAST projects must be certified by the Construction Contractors Board (CCB).

Starting January 1, 2011, CCB will begin accepting applications for EEAST certification. The fee for the certification is \$50 and may be renewed annually. CCB will certify contractors that meet the following requirements.

1. The contractor must have a current, valid license with CCB.
2. The contractor must be a qualified business entity (equal opportunity employer or other).
3. The contractor, or a contractor's employee, must have one of the following certificates.
  - a. ENERGY STAR Building Performance Institute (BPI) Silver Star contractor
  - b. ENERGY STAR Building Performance Institute (BPI) Gold Star contractor
  - c. BPI certificate as:
    - i. Building Analyst
    - ii. Envelope
    - iii. Heating
    - iv. Air conditioning/heat pump
    - v. Manufactured housing
    - vi. Multifamily

continued from page 3...

- d. Oregon Energy Coordinators Association Residential Energy Analyst Program (REAP) certificate as:
  - i. Energy Analyst-1
  - ii. Energy Analyst-2
  - iii. Shell Tech-1
  - iv. Diagnostic Tech-1
  - v. Building Performance Specialist-1
4. The contractor must be eligible to receive a public works contract.
5. The contractor must not have violated CCB rules or orders.
6. The contractor must not have violated WCD rules or orders.
7. The contractor must not have violated OR-OSHA rules or orders.
8. The contractor must not have violated federal or state wage or hour laws.
9. The contractor must certify the following.
  - a. It will use local employees for its EEAST projects, if sufficient skilled labor is available.
  - b. It will pay wages for EEAST projects at a rate of 180% of state minimum wage, unless federal prevailing wages are higher.
  - c. It will pay prevailing wages for work on EEAST projects involving commercial structures.

The application for CCB EEAST certification is available on the CCB website at:  
<http://www.oregon.gov/CCB/e-east.shtml>

For more information about the loan program, visit the Department of Energy website at:  
<http://www.oregon.gov/ENERGY/LOANS/EEAST/>

## Mercury Thermostats Annual Notification ORS 701.550

(The Construction Contractors Board provides this annual notification in compliance with ORS 701.550)

It is against the law for any person to install a thermostat containing mercury in commercial or residential buildings. This rule does not prohibit the installation on thermostats containing mercury on industrial equipment used for safety controls. (ORS 455.355) (OAR 918-440-0510)

The 2001 Oregon Legislature passed The Oregon Mercury Reduction Act which phased out the use of mercury in certain consumer products for which there are readily available alternatives.

## Portland Workplace Conference Offers Safety and Health Solutions

Injury prevention is a common thread throughout every workplace, especially in these days of tight budgets. Staying current on the latest rules and safety and health concepts is important for any business.

The 2011 Oregon Governor's Occupational Safety and Health (GOSH) Conference, the largest conference of its kind in the Northwest, is one of the best safety training values in the country. Operating a safe workplace can help give your organization a competitive edge during tough economic times.

Scheduled for March 7-10 at the Oregon Convention Center in Portland, the GOSH Conference features more than 140 workshops and sessions. Some of the topics of interest include:

- OSHA 10 Hour for Construction
- Fall Protection
- Construction Foremen: Rights and Responsibilities
- Changes in the Crane Industry

The theme for this year's event is "Safety: It's a Marathon, Not a Sprint." The conference provides an opportunity to network with other safety and health professionals in a variety of fields. New to the conference this year will be a skills demonstration in the Columbia Forklift Challenge.

More information about speakers, session topics, and registration is available on the Oregon GOSH website, [www.oregongosh.com](http://www.oregongosh.com).

---

# Oregon Minimum Wage Increase for 2011

Oregon's minimum wage rose to \$8.50 an hour on January 1 this year. This is a 10 cent an hour increase and the first increase since January 1, 2009. The increase reflects a 1.15% increase in the Consumer Price Index (CPI) since August 2009.

In 2002 Oregon voters passed Ballot Measure 25 requiring a minimum wage adjustment annually based on changes in inflation as measured by the CPI.

Oregon is one of 10 states including Washington that annually adjusts the minimum wage based on inflation and the CPI. Washington's minimum wage rose by 12 cents an hour to \$8.67, effective January 1.

When announcing the increase last fall, State Labor Commissioner Brad Avakian said, "it is critical with our economy still straining to regain its momentum— that Oregon's lowest wage earners not lose ground by falling behind inflation. At the same time, this modest increase will not shock businesses in a way that hurts the economic recovery."

## Information at your fingertips

CCB has several easy ways for busy contractors to access CCB information that is important to their business. And it is right at your fingertips.

### Sign Up for CCB's e- Newsletter

The quarterly electronic newsletter is one of the best links for contractors to know what is going on with laws and regulations. Once a contractor signs up, a link to the e- newsletter will be automatically emailed to them as soon as it is released.

### The simplest way to sign up -- send an email to:

[CCB\\_newsletter-request@listsmart.osl.state.or.us](mailto:CCB_newsletter-request@listsmart.osl.state.or.us)

In the body of the message, enter: subscribe

### Visit the CCB's Blog

The CCB created a blog so contractors could get up-to-date information. It contains much of the information in a standard newsletter but contractors don't have to wait for the quarterly release of the newsletter. It is designed so contractors can set up an RSS feed.

Visit: <http://ccbed.ccb.state.or.us/BlogEngine.NET/default.aspx>

### Use CCB's e-Watch

e-Watch is tool contractors can use to monitor the license status of subcontractors (or their own). Contractors are alerted by email if there is change, such as cancelled insurance or bond. This tool is available by registering for CCB's myLicense.

### Special Licenses and Certifications have a List Serve

The CCB has set up individual list serves for contractors that have specific, required licenses or certificates (Home Inspectors, Locksmiths, Lead-based paint renovation or activities contractors). A list serve is a great way for the CCB to send important information to a designated email. To find the list serve that meets your needs, go to the CCB website and click on the program area. Look for the list serve option.

### Visit the CCB Website

Contractors can find lots of valuable information on the website. All the required notices are available to download, a sample contract, slideshows helping contractors to understand new regulatory requirements as well as information on having a successful business. Contractors should visit the CCB website regularly! Visit: [www.oregon.gov/CCB](http://www.oregon.gov/CCB)

# Civil Penalties Issued October 01, 2010 - December 31, 2010

The Oregon Construction Contractors Board (CCB) recently announced final orders assessing civil penalties issued to Oregon contractors for violation of the Construction Contractors Law (ORS 701). Oregon law requires all construction contractors to be licensed with the CCB before they advertise, bid on, or perform construction, remodeling, or repair work.

The CCB issued 316 penalties between October 01, 2010 and December 31, 2010. Contractors receiving penalties include (see Violations Key).
