

CISA REGION 10 MONTHLY WATER SECTOR CYBERSECURITY WEBINARS

HOW TO SIGN UP FOR WEEKLY CYBER HYGIENE
SCANS AND PERFORM A SELF ASSESSMENT

The Cybersecurity and Infrastructure Security Agency (CISA) Region 10 (Alaska, Idaho, Oregon, and Washington) in conjunction with the federal, state, and local partners invites you to join an upcoming webinar to enhance your organization's knowledge of CISA and the Agency's role in Water Cybersecurity.

The webinar is crucial for critical infrastructure owners, operators, and representatives in preparing for a potential "entity notification" and helping the nation get ahead of the water sector cyber threats.

EACH WEBINAR WILL PROVIDE:

- An introduction of key federal, state, and local partners who work jointly with CISA to help complete cybersecurity self-assessment.
- The Cyber Security Evaluation Tool (CSET) provides a systematic, disciplined, and repeatable approach for evaluating an organization's security posture. CSET is a desktop software tool that guides asset owners and operators through a step-by-step process to evaluate industrial control system (ICS).
- Live Demonstration of the Readiness Ransomware Assessment and Cybersecurity Performance Goals Assessment.
- Discussion on the Incident Management Review process and how to complete multiple self-assessments.
- Real world cyber insights from CISA security advisors.
- An interactive Q&A session to address your state specific and general questions for CISA Region 10.
