

CISA REGION 10 WATER SECTOR CYBERSECURITY WORKSHOP

OVERVIEW

The Cybersecurity and Infrastructure Security Agency (CISA) Region 10 and the State of Oregon Enterprise Information Services Cyber Security Services (CSS) are hosting two (2), 4-hour Water Sector Cybersecurity Workshop in Eugene, Oregon on December 3 and 6, 2024. This workshop is designed to assist Oregon Water Sector stakeholders with their Cybersecurity Incident Response Plans (IRP) and provide a better understanding of the Cross-Sector Cybersecurity Performance Goals (CPGs).

OBJECTIVES

- Walkthrough of the Cross-Sector CPGs, a prioritized subset of information technology (IT) and operational technology (OT) cybersecurity practices aimed at meaningfully reducing risk to critical infrastructure operations.
- Overview of IRP template and assistance with creating and implementing the IRP before, during, and after a cybersecurity incident.

TARGET AUDIENCE

This workshop is intended for Water Sector Critical Infrastructure decision makers, key business personnel, staff who access systems – operational technology and information technology, and facility managers.

Participants Requirements

To participate, you must be a part of the Water and Wastewater Sector; attendance will be limited to a maximum of three (3) people per organization and should include a business decision maker, facility or technical manager, and Supervisory Control and Data Acquisition (SCADA) operator or engineer.

It is recommended, but not required, that confirmed participants bring their laptops.

ACCOMODATIONS

CISA and the State of Oregon are committed to hosting inclusive, accessible events that enable all individuals to engage fully. To request accommodation or for inquiries about accessibility, please email CISA.R10.Outreach@cisa.dhs.gov.
