**DIVISION 30**  
**ADMINISTRATIVE REQUIREMENTS FOR HEALTH PROFESSION STUDENT CLINICAL TRAINING**

**409-030-0100**

**Purpose**

These rules (OAR 409-030-0100 to 409-030-0250) establish standards for administrative requirements for health professional student placements in clinical training settings within the state of Oregon. The purpose of these rules is to mitigate inconsistencies that currently exist across clinical placements; to promote efficient solutions to reduce costs for students, health profession programs and clinical placement sites; and to ensure patient, clinical staff and student safety. These rules pertain to credentials that students must obtain and requirements that clinical placement sites may set. These rules are effective July 1, 2014.

**409-030-0140**  
**Clinical Settings**

- (1) Except as provided in section OAR 409-030-0140 (2) and 409-030-0150, these rules apply to the following clinical facilities hosting health professions students in the disciplines described in OAR 409-030-0130:
- (a) Ambulatory care settings, including but not limited to clinics, private practices, Federally Qualified Health Centers, and primary care homes;

**409-030-0150**  
**Exceptions**

- (1) In addition to the exceptions listed in OAR 409-030-0130 (2) and 409-030-0140 (2), the standards in these rules does not apply to:
- (a) Students who will not have direct patient contact as part of their clinical placement.
  - (b) Students who are undergoing training overseen by their employer, academic institution, or training program at facilities that are located on the premises of or operated solely by the employer, academic institution or training program, or are otherwise considered "in-house" clinics.
- (2) Clinical placement sites that have fewer or less stringent administrative requirements for newly hired non-student employees may request exemption from specific provisions of OAR 409-030-0170 through 409-030-0240 for students performing clinical placements at that site. For example, a clinical placement site that does not require regular employees to take a drug screen prior to being hired may request exemption from the section of these rules that require students to take a drug screen prior to being placed at that clinical site. However:
- (a) All exemptions must be documented with the Authority prior to implementation of the exemption; and
  - (b) Clinical placement sites may only request exemptions from the specific category or section of these rules in which their requirements for newly-hired non student employees

are less (such as immunizations, screenings, trainings or other listed in Table 1). Clinical placement sites with an exemption to a specific category of the administrative requirements must still abide by all other sections of these rules.

- (3) Exemption requests may be submitted by:
  - (a) Clinical placement sites; or
  - (b) Educational institutions, on behalf of and in consultation with the clinical placement sites with which they contract and place students for clinical training.
- (4) A request for exemption must include:
  - (a) The name and mailing address of the clinical placement setting.
  - (b) The supervisor or manager of student clinical placements on site, and email address and a phone number.
  - (c) A request for exemption from a specific section of the rules, that includes a description of the clinical placement setting's requirements for newly hired non-student employees, and how they differ from the requirements set forth in these rules.
- (5) Clinical placement settings may temporarily institute a site-specific variation or change to a requirement listed in OAR 409-030-0170 through 409-030-0240 in extenuating circumstances including but not limited to a public health emergency situation, such as an outbreak that requires new or different vaccination or a safety breach that requires immediate action, provided that the clinical placement setting clearly notifies all affected parties and the Authority in advance of the changes.
- (6) Once instituted, a change or variation of these rule requirements may remain in place at the individual clinical training placement setting until the next annual review of the rules, at which point a decision will be made that:
  - (a) The change or variation is one mandated by a federal or state regulatory agency and will therefore be incorporated into these rules for all affected clinical placement settings and health profession students; or
  - (b) The change or variation would improve student and patient safety significantly and should be applied widely to clinical placement settings and health profession students in the state of Oregon, through an amendment to these rules; or
  - (c) The change or variation is not appropriate for widespread application to clinical placement settings and health professions students in the state of Oregon. In this case, the change or variation may not be re-instated by the clinical placement site after the annual review of the rules.

#### **409-030-0160**

##### **Regular Review of Clinical Placement Standards**

The Authority and the advisory group shall review the standards set forth in sections OAR 409-030-0170 through 409-030-0240 of these rules annually. Affected parties may bring proposed changes to the annual review process.

- (2) Standards for immunizations are based on the CDC Advisory Committee on Immunization Practices guidance and other state and federal regulatory bodies overseeing immunization and vaccinations. Rules shall be updated as needed to remain in compliance with suggested vaccination schedules and other recommendations from these regulatory bodies related to the applicable immunizations and screenings listed in Table 1.
- (3) State and nationwide criminal background check standards are based on rules determined by authorized state and federal regulatory bodies, including but not limited to the Joint Commission.

  - (a) Immunizations; and
  - (b) Screenings;

Clinical placement settings shall make all final clearance and placement decisions.
- (2) At a minimum, a covered student seeking a clinical placement at a covered clinical site must undergo a standard 10-panel drug test and must sign any necessary authorizations. Screens for the following eight (8) substances must be included in the 10-panel drug screen:
