Space generously offered by ECCO

Topic

**Interactive Q&A Panel with Neurodiverse UofO Students**

Students from the University of Oregon Neurodiversity Alliance will share their experiences growing up neurodivergent, going to college as neurodivergent students, the importance having community and the social model of disability. The students will also share what they wish teachers & parents understood, the supports that helped them the most and the barriers that hindered their progress. Please come ready to ask your questions!
