## Clear Health

Direct Primary Care

Nicholas Jones, MD

*A clear path to better health*

## What is direct Primary Care?

### No Insurance Needed:

- Say goodbye to copays and deductibles.
- Affordable monthly membership fees.

### Personalized Care:

- Tailored treatment plans for your unique needs.
- Non-rushed 30-60 min appointments when needed.

### Convenient Access:

- Same-day or next-day availability.
- 24/7 access to your doctor via video, call, text, or email.

### Holistic Health:

- Emphasis on your overall well-being.
- Nutrition and lifestyle guidance.

## How is DPC better?

### **Convenient and Personal:**

Shorter waits, longer visits, and flexible scheduling.

### **Patient-Centered Approach:**

Experience healthcare tailored to your needs, with a focus on building strong doctor-patient relationships.

### **Wellness Support:**

Achieve wellness goals with nutrition and lifestyle help.

### **Easy Access:**

Enjoy longer appointments, extended hours, and direct communication with your doctor through phone emails, or telemedicine.

### **Transparent Pricing:**

Affordable monthly membership and know exactly what you're paying for, with clear, upfront pricing for all services.

## About the Doctor

I am board-certified in Family Medicine, and I attended medical school in vibrant San Antonio (Go Spurs Go!). My residency training took place in Corpus Christi, Texas, where we provided care to uninsured and underinsured patients. My passion is lifestyle and preventive medicine. Direct Primary Care allows me the time to educate and support my patients in reaching their goals.

At Clear Health DPC, we are dedicated to being available for our patients. Our approach to healthcare is built on a foundation of transparency and trust. For more information, please visit our website. We look forward to welcoming you into our healthcare family!

# DIRECT CARE ADVANTAGE

- Timely appointments for urgent care – your employees get back to work faster and miss less days of work.
- Office visits are 30 to 60 minutes.
- We use technology to keep simple problems simple (via text, email or secure video).
- Limited practice size.
- Our Pharmacy dispenses generic medications in the office at wholesale prices.
- We've negotiated prices for lab testing 90% to 95% off "insurance prices."
- We consult specialists only when necessary – fewer costly referrals for your employees.
- No copays ever and procedures >\$10 are performed at the cost of materials (usually \$10-\$20)

## OUR VISION

*Where we believe  
Healthy Employees are  
Happy Employees*

## AN AFFORDABLE HEALTHCARE BENEFIT FOR YOUR EMPLOYEES

The challenges facing small business owners can be overwhelming and the cost of doing business is escalating. Many business owners who want to offer healthcare benefits find it simply isn't possible in today's business climate.

In a 2023 Employer Health Benefits Survey, the Kaiser Family Foundation reported that the average employer-sponsored health insurance premium was \$8,431 for single coverage and \$23,968 for a family. With high deductible health insurance premiums sky-rocketing, owners and employees are increasingly dissatisfied with their options.

At Clear Health DPC we believe healthcare can and should be affordable. We have created a clinic that cuts out overhead, eliminates artificially inflated prices, and works to transfer all these cost savings to your employees. With our employee membership pricing, small businesses can offer employees a year's worth of actual health care coverage that will meet most of their needs for a fraction of the cost of a high deductible health insurance plan.

## HOW IT WORKS

- Employers pay a monthly \$100 membership fee per enrolled employee.
- Employers may enroll or remove employees each month.
- Family members of your employees are welcome to join the clinic. You choose how many if any dependents you want to include.
- Employees are responsible for labs, and medication at whole sale prices.
- Employees are encouraged to consider a catastrophic plan (insurance or health sharing co-op) to cover hospitalization, expensive cancer treatment, or trauma as a safety net

## BENEFITS TO EMPLOYER

- Healthier employees
- Less lost employee hours
- Ability to provide low cost health benefit
- Attract and retain the best employees
- **10% discount for non-profit organizations**

## HOW TO GET STARTED

- Contact our clinic. We'll come to your business to meet with you and your employees to answer any questions about about Clear Health DPC and the services we offer.
- After completing the employer agreement and payment authorization we will create your HR portal to add/drop employees +/- any dependents.
- Share your unique employer URL sign up link with interested employees. We add all your interested employees as members in our clinic and will work with them to obtain records and set up their new patient visit.
- Each month you receive a single itemized invoice.
- Any employee leaving your employment can remain a Clear Health DPC patient by taking on the monthly fee. We require a 60 day notice.
