

The Portland Women's Crisis Line presents:

Sexual Violence Within Intimate Relationships

Advocates understand that sexual violence is one of the various forms of domestic violence between intimate partners. However, many survivors of domestic violence don't disclose experiencing sexual violence when they seek emergency services, which makes it even more important for advocates to have the right tools to support survivors when they do.

This is an intermediate training.

Wednesday, April 4

9a-12p

Catholic Charities Training Rooms A&B

\$15/person
