WHY ATTEND

Join the National Center for Fatality Review and Prevention staff for a webinar introducing version 5.1 of the National Fatality Review-Case Reporting System (NFR-CRS). Key changes include:

- Expanded child's mental health and substance use/abuse questions in Section A2 (CDR only)
- Expanded and revised suicide questions (CDR only)
- New section on life stressors
- Revision of Section L to focus on case findings
- All variable data download
- Health equity standardized report (FIMR only)

*A limit of 500 attendees are permitted. All webinars are archived and posted on our website: <https://www.ncfrp.org/>

SPEAKER BIOGRAPHIES

Welcome and Opening Remarks: Diane Pilkey, RN, MPH

Diane Pilkey, RN, MPH is a Senior Nurse Consultant at the Maternal and Child Health Bureau/Health Resources and Services Administration and the federal project officer for the National Center for Fatality Review and Prevention cooperative agreement. Diane has more than 20 years of experience in public health at the local, state, and federal level, including with the Washington State Department of Health, where she worked as an epidemiologist and the Child Death Review Assessment Coordinator. Diane is a registered nurse who has practiced in both clinical and public health settings in both urban and rural settings. Her work has focused on children and adolescents, injury and violence, infant mortality, and early childhood. Diane has a master's in Public Health from the Maternal and Child Health program at the University of Washington Public Health School, a bachelor's in nursing from the University of North Carolina and a bachelor's in Cultural Anthropology from Duke University.

Guest Speaker: Staff from the Center for National Prevention Initiatives at the Michigan Public Health Institute will present.

ORGANIZATION DESCRIPTION

Webinar Host Organization: The National Center for Fatality Review & Prevention

The National Center for Fatality Review & Prevention, a program of the Michigan Public Health Institute (MPHI), is funded by the U.S. Health Resources & Services Administration Maternal and Child Health Bureau to provide training, technical assistance, and data services to CDR and FIMR programs around the country. The Center uses on-site and remote consultations, web-based trainings, and an interactive website to support review programs. The National Center also develops and disseminates materials. Support focuses on assisting teams to improve their effectiveness in moving from review findings to policy, practice, and prevention improvements. NCFRP also works with numerous national partners to help translate review recommendations into action.
