# Documenting Supervision in the Pediatric NFR-CRS

**Thursday, December 4, 2025**

**2:00 pm-3:00 pm, EST**

Assessing supervision of a child or infant in the context of fatality review is important but can be a challenge. In this webinar, guidelines to help CDR and FIMR teams determine whether a child or infant was supervised at the time of death are discussed. Participants will have an opportunity to practice assessing supervision with mock review scenarios, as well as learn about the definitions of supervision. Resources and best practices for determining supervision will be available.

## Speakers

Patti Schnitzer, PhD - National Center for Fatality Review and Prevention  
Stacy Meade, MPH - National Center for Fatality Review and Prevention
