

# Please join members of the Section on Child Death Review and Prevention (SOCDRP) for a special webinar

## AAP Webinar: Using CDR Data and a QI Framework to Reduce Sleep-Related Infant Deaths

Wednesday, February 25, 2026 | 1:00 – 2:00 pm ET | 12:00 – 1:00 pm CT | 11:00 am – 12:00 pm MT | 10:00 – 11:00 am PT

**Overview:** This webinar will inform attendees how to use child death review data within a quality improvement framework to reduce the number of sleep-related deaths of infants born at their birthing hospitals.

**Objectives:** By the end of this session, participants will be able to:

1. Describe the purpose of child death review
2. Identify where child death review programs operate in your locality
3. Implement the quality improvement process to prevent negative outcomes in children
4. Describe how using child death review data in a QI framework can reduce sleep related deaths among infants born within a birthing hospital

### Faculty:

Kirsten Bechtel, MD, FAAP, SOCDRP Chairperson

Scott Krugman, MD, FAAP, SOCDRP Executive Committee Member

This event is sponsored by the AAP Section on Child Death Review and Prevention.
