Webinar: What is Open Data?

An Introduction to Oregon's New Open Data Program

March 19, 2021

10am PST

About this webinar:

This webinar, the first in a monthly series, will define open data, provide some history on government open data, and showcase different states and governments with current open data programs in place. The webinar will end with an overview of Oregon's new Open Data Program.

This webinar is open to all State employees who have an interest in open data or want to learn more about Oregon's Open Data Program

Registration:

[Register using the online form linked here](#)

Registrants will have an event invite forwarded to their inbox within 2 business days of registering. The webinar will be recorded and made available after the event.
