

A stylized world map in shades of blue, overlaid with a network of white lines and circular nodes, suggesting global connectivity and data flow. The map is centered on the Atlantic Ocean, with North and South America on the left and Europe and Africa on the right.

Esri 2017

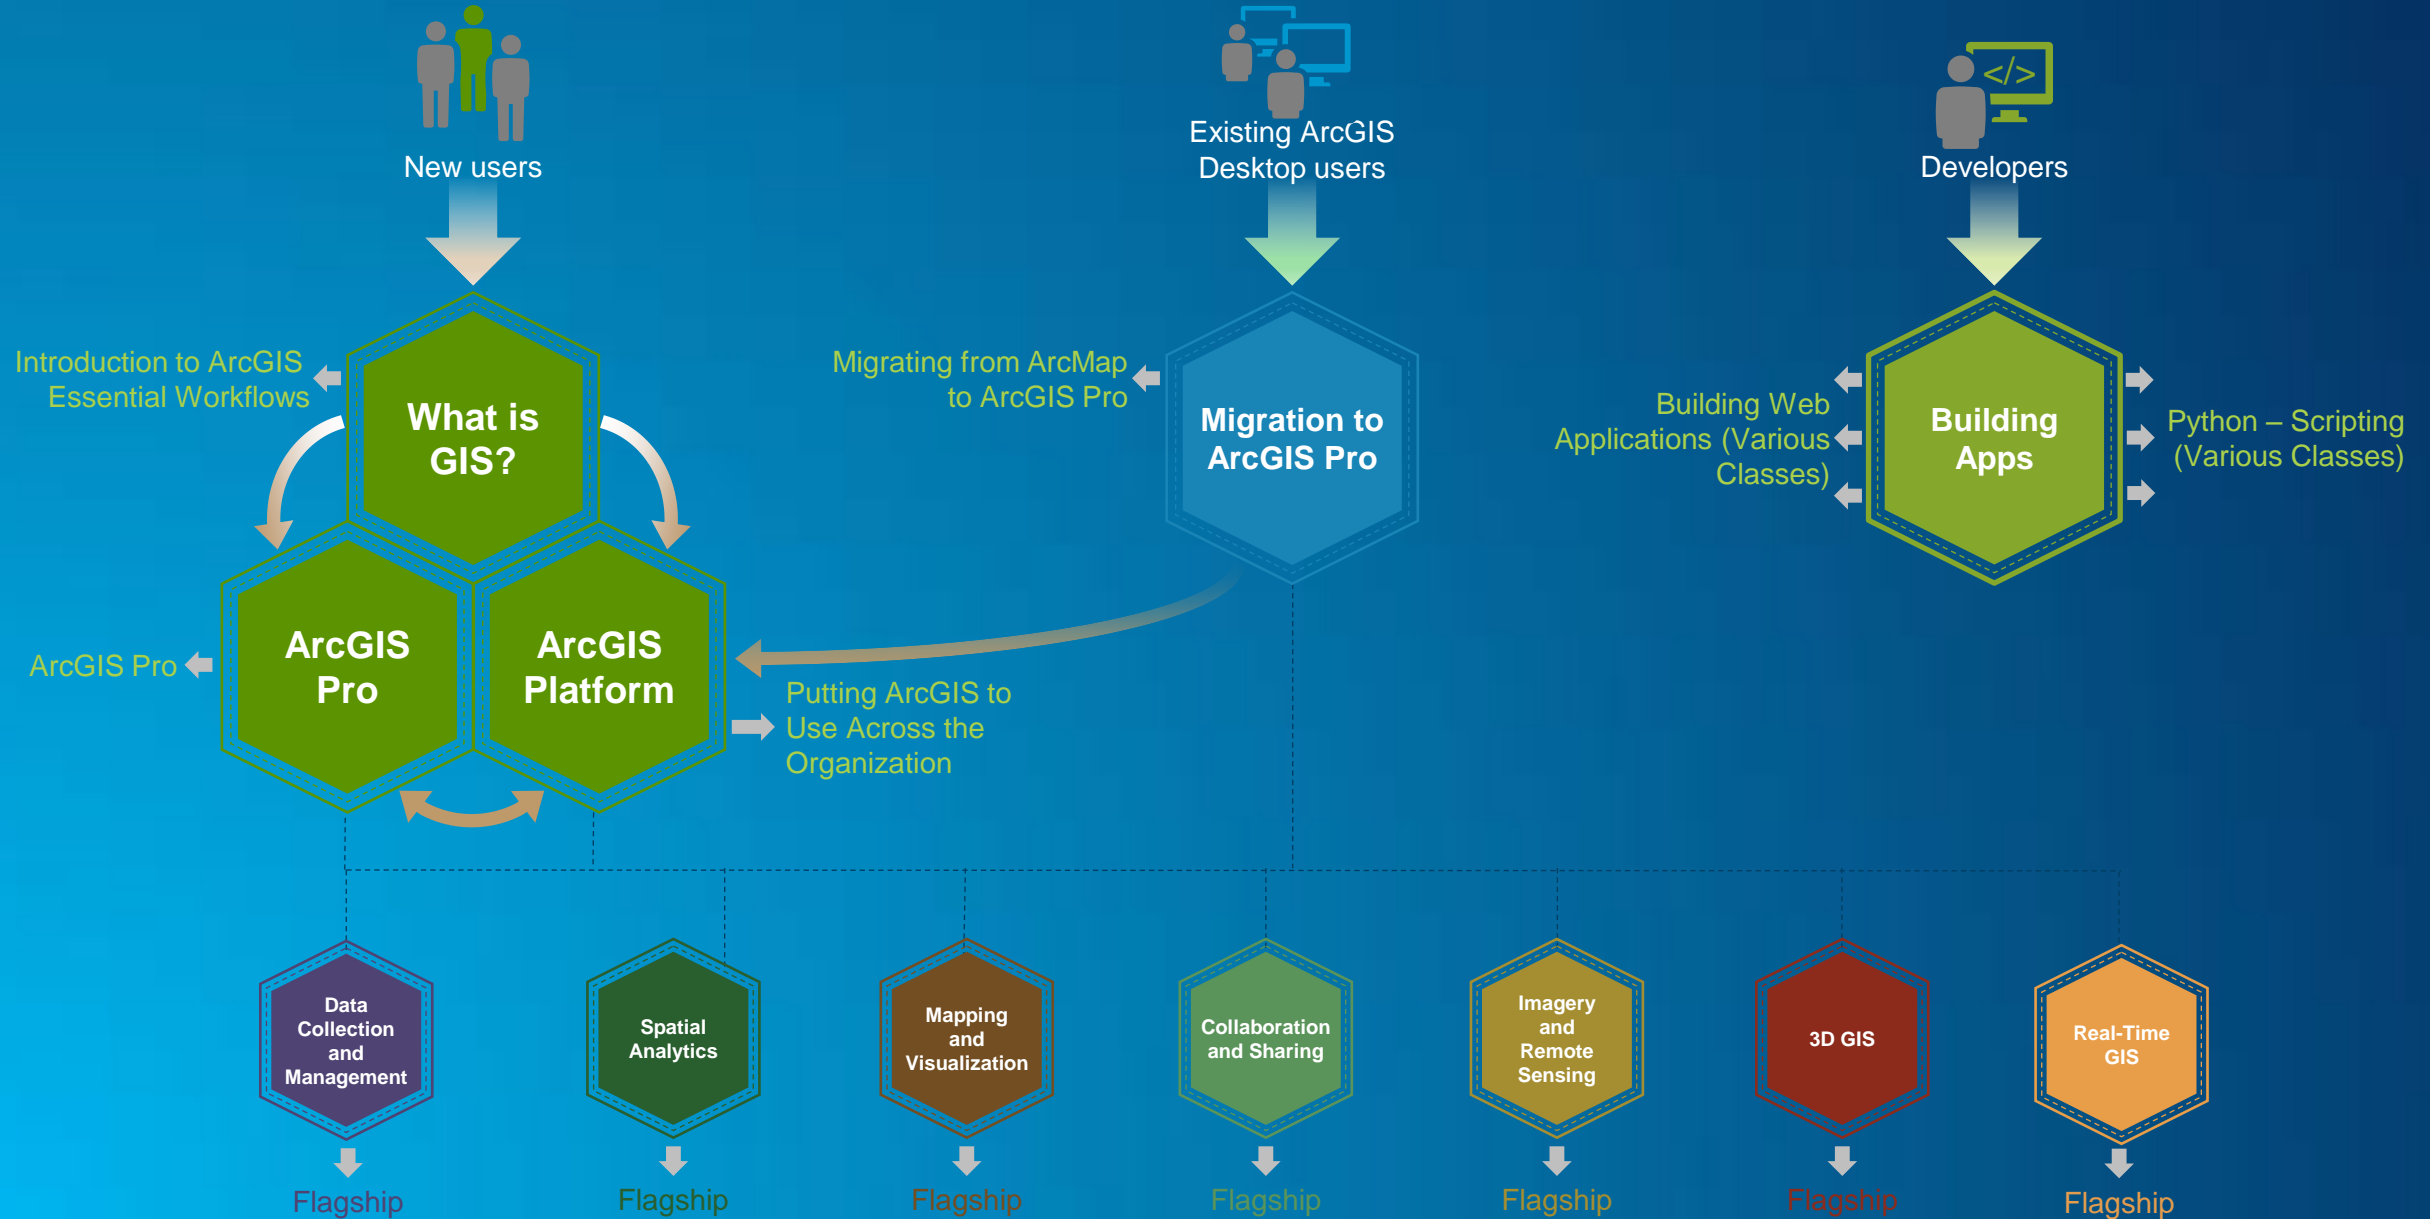

Esri Training Update

Diane Wagner, Training Consultant

A knowledgeable staff is better equipped to recognize opportunities for using GIS to help the organization increase productivity, decrease operating costs, and improve the overall quality of work accomplished.

Develop Skills & Knowledge

Capabilities and Workflows

ArcGIS Foundation	<ul style="list-style-type: none">• Learn GIS Concepts• Learn ArcGIS Desktop Concepts
Data Collection & Management	<ul style="list-style-type: none">• Create and Edit Data• Collect Data in the Field• Manage Enterprise Geodatabase
Spatial Analytics	<ul style="list-style-type: none">• Learn the Basics• Find the Best Locations
Mapping & Visualization	<ul style="list-style-type: none">• Tell Stories with Maps• Perform Geodesign
Collaboration & Sharing	<ul style="list-style-type: none">• Basics of Sharing• Configure and Manage

Real Time GIS	<ul style="list-style-type: none">• Operations Dashboard
Developer	<ul style="list-style-type: none">• Script & Automate• Build Web GIS• Build Desktop GIS Apps

New Courses – 2017

Migrating from ArcMap to ArcGIS Pro, Instructor-led, 2 days (NEW) (Experienced ArcMap Users)

Field Data Collection and Management Using ArcGIS, Instructor-led, 2 days

Get Started with Insights for ArcGIS – Instructor-led, 1 day

Creating Story Maps with ArcGIS, Instructor-led, 1 day

Configuring Web Apps Using Web AppBuilder for ArcGIS, Instructor-led, 1 Day

MOOC

Cartography – (NEW)

Learn from Accomplished Cartographers Using World-Class GIS.

With coaching from experienced cartographers and practical, hands-on exercises using ArcGIS Pro, you'll become a smarter mapmaker, ready to go beyond the defaults and make better maps. The course covers six weeks and requires 2-3 hours of study per week. **Next class begins November 1 – December 12, 2017.**

Esri Technical Certification

Certification Exams

Esri Technical Certification exams recognize expertise in three domains: desktop, developer, and enterprise use of ArcGIS. Certifications are offered at three levels: Entry, Associate, and Professional.

[Register for an Exam](#)

	Exams	Entry	Associate	Professional
Desktop	ArcGIS Desktop	10.3 10.4 10.5	10.3 10.5	10.3 10.5
Developer	ArcGIS Desktop Developer		10.4	
	Web Application Developer		10.4	
Enterprise	Enterprise Geodata Management		10.3 10.5	10.3 10.5
	Enterprise System Design		10.3 10.4 10.5	
	Enterprise Administration		10.3 10.4 10.5	

[Download Preparation Resources](#)

Qualifications

Skills Measured

Software

Exam Details

A qualified candidate should be able to perform the following tasks:

- Apply advanced map visualization (quantitative and qualitative) and cartographic methods and techniques
- Construct a map using available datasets and services
- Create new spatial datasets from analysis of existing datasets
- Work with layer properties and tables, and apply editing workflows
- Describe the basic types of geographic data
- Select the datasets necessary to perform a specific analysis
- Author and share content online
- Share data through layer and map packages

Enterprise System Design Associate 10.5

Preparation Resources

The following training resources are available to help you prepare for your exam but are not required. Please utilize this list of preparation resources with the list of "skills measured" topics so you can identify appropriate training options for any possible knowledge gaps.

Please note that completing the recommended training courses does not guarantee that you will achieve the requirements for a specific certification exam.
