Session 8

The Repercussions of Bullying on Girls' Futures

Presented by: Rosalind Wiseman,
Internationally recognized expert on children, teens, parenting,
bullying, social justice and ethical leadership

When: Tuesday, September 20, 2011

2pm Eastern– 1pm Central– 12pm Mountain– 11am Pacific

After participating in this webinar participants will be able to:

- Recognize girls' anger and their perceived options to express that anger and how their experience impacts their emotional health and future relationships as they enter adulthood
- Learn concrete strategies to help girls build social competencies and emotional well-being now and in the future
- Understand the impact of technology (both positive and negative) on girls' ability to navigate relationships

About our series:

The impact of violence, abuse, neglect, disaster, war, and other harmful experiences continues long after the traumatic event has ended. Exposure to trauma is a pervasive issue that has significantly impacted the health and well-being of millions of Americans and nearly everyone seeking services in the public health and social services systems. Understanding how trauma affects the emotional, behavioral, cognitive, social, and physical functioning of the people we care for can improve all health and social services.

All health and social service providers are welcome, including medical care providers, dentists, social workers, teachers, mental health workers, substance use disorder treatment providers, corrections officers, and community program staff, to name a few.

*This webinar will be recorded, archived and available for viewing at the above link after September 22nd.

Join our email list! If you received this notice as a forwarded message and want to ensure you receive all notifications, or would like to be removed from this list, please e-mail the webinar coordinator at Emma.Winter@hhs.gov .
