

# River Cities Chapter of Medical Assistants

An affiliate of OSMA and AAMA

## Education

When: Saturday, February 8<sup>th</sup> 2014

8:30-10:30am

Where: Providence Portland Medical Center

4805 NE Glisan

Basement, HCCC1

What: Cancer and Medications; Understanding Drug Therapies

Presented by Catherine Kefer, MSN, APRN-BC, AOCNP

According to the Centers for Disease Control and Prevention, Cancer is the second leading cause of death in the United States. Cancer affects so many individuals and their families every day. As a Medical Assistant it is important to understand the common drug treatments and therapies prescribed for your patients.

During this education session you will learn; the difference between oral and IV chemotherapy agents, discuss the drug-body response and drug interactions, identify oral chemotherapy and targeted agent drug interactions, discuss financial challenges for patients with these agents, and analyze case studies for potential interactions.
