Addictions and Mental Health Division (AMH)

Tobacco Freedom Policy Stakeholder Meeting Schedule

During the month of August, AMH is hosting a series of regional Tobacco Freedom Policy meetings to bring together its partners – consumers, residential providers, community members and other stakeholders – to discuss how to create tobacco-free housing throughout the addictions and mental health continuum of care. Together, participants will collaborate on the best way to maintain the health, safety and well-being of the individuals receiving residential services while supporting them to become tobacco-free individuals.

Meeting Goals:

- Share best practices of those providers who have successfully implemented tobacco-free grounds
- Understand challenges to implementation of the Tobacco Freedom policy
- Offer solutions and ideas for removing barriers
- Gather recommendations and strategies for next steps

Location	Date	Time	Address
