

# Syphilis Intensive

3 individual sessions

*Participants are expected to attend each live session (required for CME)*

The **Syphilis Intensive** provides participants with training in the most recent advancements in epidemiology, diagnosis, and management of syphilis. These 3 didactic lectures will include case study, audience response, and question and answer periods.

## ▼ TOPICS INCLUDE (SUBJECT TO CHANGE):

- September 15th: Syphilis Basics
- September 22nd: Test Interpretation, Staging, and Intro into Neurosyphilis
- September 29th: Syphilis in Pregnancy & Congenital Syphilis

## ▼ COURSE PARTICIPANTS WILL LEARN HOW TO:

- Describe the changing epidemiologic trends of infection.
- List the stages of disease and describe clinical manifestations of each stage of syphilis.
- List and describe the direct microscopic and serologic tests for syphilis and their application and interpretation in the diagnosis of infection.
- Discuss the clinical management of syphilis to include treatment, follow-up and partner management
- Discuss the management of congenital syphilis
- Discuss screening recommendations
