

Social Determinants of Health Community of Practice

Strengthening Activities to Social Determinants of Health!

California Prevention Training Center is hosting a 4-session social determinants of health (SDH) community of practice (CoP) virtual series. The purpose of the SDH CoP is to provide TA opportunities for our west geographic region partners in strengthening their SDH activities. Participants will have the opportunity to network and gain knowledge and skills to address SDH within their HIV prevention programs.

Sessions will occur between 10:00 AM – 11:30 AM PST on:

- **Session 1: Tuesday, March 21 –**
Using Data to Improve HIV-Related Health Equity
- **Session 2: Thursday, March 23**
Addressing Housing to Improve HIV Healthcare
- **Session 3: Tuesday, March 28**
Strategies to Reduce HIV Stigma
- **Session 4: Thursday, March 30**
Successes and Challenges of SDH Programs

Learning Objectives:

By the end of this 4-session virtual series, attendees of the SDH CoP will be able to:

- Explain 3 ways that SDH data can be used to improve HIV-related health equity.
- Identify 3 actions to address the intersection between housing and HIV healthcare.
- Describe 2 community engagement strategies to reduce HIV-related stigma.
