## **The FIMR/HIV Prevention Methodology: A Community Tool for System-Level Improvement**

Join us for this 60 minute webinar to connect with active and prospective sites on the FIMR/HIV Prevention Methodology!

Focused more on conversations and less on educational presentations, this webinar will provide an opportunity for:

- Active sites to share successes & challenges
- Prospective sites to ask questions and seek advice
- Interested parties to listen in and learn more
- Focused conversations around congenital syphilis (*how sites use methodology to review cases*)
