HERPES STIGMA SURVEY

Sexual Health is Mental Health

Something Positive for Positive People has an open HSV stigma survey online for people with herpes to take. Share your experiences to help our advocacy efforts to create de-stigmatizing STD prevention programs.

- ✓ Disclosure
- ✓ Mental Health Impacts
- ✓ Holistic Care
- ✓ Meds Side Effects
- ✓ Stigma from Health Care Workers

HERPES STIGMA CONFERENCE

Sexual Health is Mental Health - May 23

Since 2017, Something Positive for Positive People (SPFPP) has researched the experiences of people navigating herpes stigma. Our research has led us to developing intervention programs that support sex education and STD Prevention Efforts and we will present this data virtually at our upcoming conference where our speakers will also cover the following topics:

- ✓ **Mental Health Impacts of Stigma**
- ✓ **HSV Stigma in Health Care**
- ✓ **Proposed Solutions to Stigma**
