

Collaborative Summer Library Program

2014 Partnerships

Additional information about our partners, including flyers, links and discount codes can be found on our website www.cslpreads.org

You will need to log in and click on 'Partnerships'

The program is simple. Bedtime Math posts zany math riddles daily on their website, free app and Facebook page. Every time kids do a math problem, they can track their progress using a fun connect-the-dot constellation chart and shiny star stickers. At the end of the summer, kids can bring in their sparkling constellations and earn a Bedtime Math flash light! (from participating libraries)

The Lunar and Planetary Institute's *Explore* program invites library professionals to open doors to the universe to children – no prior experience in science is required! For each of eleven different Earth and space science and engineering topics, *Explore* provides step-by-step instructions for hands-on activities, as well as facilitator background information, correlating National Science All materials can be accessed online at <http://www.lpi.usra.edu/explore> — free for educational use! The activities are designed to be flexible and can be integrated into existing or new programs. They use inexpensive, easy-to-find materials — and, children can take their creations home with them!

Movie Licensing USA can enhance and develop your library's programming, using major entertainment movies without copyright infringement. Our long-standing, exclusive licensing agreements with prominent Hollywood movie studios ensure a copyright-compliant, worry-free and liability-free movie experience. Free movie posters available to members. <http://library.movlic.com/CSLP>

Welcome CSLP Partners! Are you looking for reading and activity resources? The National Park Service has the science resources you are looking for at:

This page is your map to navigate the National Fossil Day website. Each of the links below will help get you started with and involved in National Fossil Day. We also have helpful hints for how to use each of these pages to benefit your library's celebration. Order your free materials today or contact us with any questions.

More than ever, today's children are on the go – physically and virtually. The Fit4Fun Reader focuses on the Four Pillars of a Child's Healthy Life: Imagination, Play, Learning and Growth. The Fit4Fun Readers are available FREE for libraries.

National Geographic Kids is joining with CSLP to further nurture curiosity and to underscore a sense of exploration and discovery through summer reading. *And* to turn up the volume on even more fun. With the 2014 slogan -- FIZZ BOOM READ! -- built around Science -- this is the perfect time for our partnership to help your public Library summer reading programs prevent the slide from getting traction, keep kids turning pages, learning new things, and put them on the path for a lifetime love of reading.

Starting in 2014, little ones in the Early Literacy Summer Reading Programs and youngsters in the Children’s Programs will benefit from a careful selection of National Geographic books that support program themes plus some exciting incentives and rewards which include year-long subscriptions to National Geographic Kids award-winning magazine and trading cards featuring fabulous photographs.

Looking for ways to motivate your kids to read this summer?

FIZZ BOOM READ & CWIST the LIST!

CWIST is a free interactive library of learning activities with an interactive system to help kids achieve summer learning goals and we’re collaborating the summer with your library’s FIZZ BOOM READ program.

Learn more at <http://www.youtube.com/watch?v=m8cD-Y5Wygk> or to register go to <https://www.cwist.com/account/registration/>
