Number of Wi-Fi sessions	713,366
Average Wi-Fi session duration (mins)	89
Number of device uses	189,968
Average length of device use (mins)	26
Number of device circulations	2,854
Average number of devices circulated (mth)	18
Average device loaning period (days)	15

## SATISFACTION SURVEY

1 = Strongly Disagree ● 5 = Strongly Agree

“ The grant has been a very positive experience for both patrons and library staff throughout our regional system. Staff have expanded their thinking of what libraries can offer patrons beyond the “traditional” book and movie collections. Similarly, patrons also began to think of the library as more than “just books” and more as place in community where [they] go for information and help with wider range of information needs. Patrons are re-engaging with their local library on a whole new level now. ”
