Presenter:

Diane Malbin, M.S.W., Executive Director, is a clinical social worker, program developer, and consultant who provides information and services for individuals, families, and agencies. Research findings of improved outcomes for people with FASD based on her work have been presented nationally and internationally. She teaches and consults with parents, educators, health and social service providers, treatment professionals and others across the US and Canada. She is a published author and parent of two young adults with FASD.
