

VOCA Funding Survey

It is expected that VOCA's 2015 allocation will be significantly more than we have ever seen due to the increase in the VOCA cap from \$745M to \$2.36B. Oregon's allocation may be three times as much as we have traditionally received, however, we do not have any new information at this time regarding specific numbers. With that said, it is very important that we start looking at how the state can most effectively use this increase. What we are interested in learning from this survey is where the priorities are in victim services, the needs in your community and the ideas you have to provide services to victims in your areas of expertise.

As you respond to the survey questions, please keep in mind the overall VOCA purpose of direct and emergency services (VOCA cannot support prosecution activities, prevention, perpetrator services, training for non-direct services personnel and only within a VOCA-funded organization, no medical costs...). A link to the VOCA webpage has been provided as a reference: <http://www.doj.state.or.us/victims/pages/voca.aspx>.

Please submit only one survey per agency. Consulting with agency staff is encouraged.
