Join us for a support group for survivors of sexual abuse. This is primarily an educational group, and the goal of the group is to give survivors a foundation to heal. We will address topics such as coping skills, grounding techniques, the impact of trauma, learning to understand and respond to triggers, and building skills around emotional regulation, boundaries, and communication. This is a 10-week closed group, and will meet every Wednesday evening from 6:30pm to 8pm. We welcome people of all genders, ethnicities and abilities.
