The National Center for Fatality Review and Prevention announces an upcoming Webinar on:

Building Effective Partnerships for Fatality Review

WHEN: January 11, 2017
2:00 p.m. – 3:00 p.m. ET

Webinar will be recorded and posted with the slides on the NCFRP website: www.ncfrp.org

Opening Remarks: Bethany Miller,* M.Ed., MSW, Health Resources and Services Administration
Director of Injury and Violence Prevention Programs at US HRSA, MCHB

Guest Speaker: Carolyn Cumpsty-Fowler,* PhD, MPH, Assistant Professor, Johns Hopkins University
Dr. Cumpsty-Fowler is an Assistant Professor at the Johns Hopkins School of Nursing and has a joint appointment to the Department of Health Policy and Management at the Bloomberg School of Public Health. Through much of her career, she has focused on public health workforce development and the evaluation-informed translation of theory into practice.

***More complete bios for Dr. Cumpsty-Fowler and Ms. Miller are below.**

Why attend: Strong and diverse partnerships are the foundation of a successful mortality review team. Partnerships are vital for all aspects of mortality review work, including reviewing deaths, abstracting and collecting data and identifying and implementing prevention recommendations. This webinar will focus on identifying and engaging new partners, identifying methods for improving collaboration with existing partners, and best practices in partnership building.

Who should attend: CDR and FIMR coordinators and team members, facilitators, abstractors, interviewers

SAVE THE DATE for our next webinar:

Fatality Review of Deaths of Infants, Children and Youth with Disabilities and Special Health Care Needs

Wednesday, February 8, 2017, 1:00 pm – 2:00 pm ET.
Registration details to follow.

SPEAKERS

Dr. Carolyn Cumpsty-Fowler, PhD, MPH

Dr. Carolyn Cumpsty-Fowler is an Assistant Professor at the Johns Hopkins School of Nursing and has a joint appointment to the Department of Health Policy and Management at the Bloomberg School of Public Health. She is a faculty member of the Johns Hopkins Center for Injury Research and Policy. Dr. Fowler has conducted research into traumatic brain injury in children; child pedestrian injury; psycho-social outcomes from bicycle-related head injury in children; recreational injury; penetrating eye injury; outcomes from maxillo-facial injury; and most recently design and evaluation of in-hospital and community efforts to reduce sleep environment related death in infants.

Her main public health interest, however, is workforce development and evaluation-informed translation of theory into practice. Specifically, this involves application of theory in the design, implementation, and evaluation of public health programs at the local level, as well as the development of community capacity to address injury. Dr. Fowler, who is an award-winning educator, has participated in local, national and international training initiatives. Dr. Fowler has been Faculty Director for the Johns Hopkins Summer Institute "Principles and Practice of Injury Prevention" since 1999; she also developed and taught the MidAtlantic Public Health Training Center's public health core competency training series. She served as a member of the advisory board for the National Center for Review and Prevention of Child Deaths for many years. She also serves on the Maryland Injury Prevention Partnership Advisory Board. Dr. Fowler founded and chaired the Baltimore County Child Death Review Team from 1999-2010. Dr. Cumpsty-Fowler served as chair of the Advisory Committee for Injury Prevention and Control at CDC from 2005-2008; and she chaired the Chair of the Board of Scientific Counselors for the National Center for Injury Prevention and Control at CDC from 2008-2014.

Bethany Miller, M.Ed., MSW

Bethany Miller is the Director of Injury and Violence Prevention Programs within the Division of Child, Adolescent and Family Health. Bethany comes to HRSA with nearly nine years of federal service at the Administration of Children and Families (ACF) and the Substance Abuse and Mental Health Services Administration. Bethany has served as Project Officer over numerous discretionary grants, technical assistance contracts, and evaluation contracts in both the child welfare and children's mental health arenas. Prior to federal service, Bethany spent the first eight years of her career as a clinical social worker in the greater Los Angeles metropolitan area. Bethany received her Master of Social Welfare from the University of California, Los Angeles, and also has a Master of Education in Guidance and Counseling and a Bachelor of Science in Psychology, both from Virginia Commonwealth University.
