The National Center for Fatality Review and Prevention announces an upcoming Webinar on:

Data Driven Strategies for Drowning Prevention

WHEN: April 12, 2017
2:00 p.m. – 3:00 p.m. ET

Webinar will be recorded and posted with the slides on the NCFRP website: www.ncfrp.org

Introduction: Diane Pilkey,* RN, MPH

Senior Nurse Consultant at the Maternal and Child Health Bureau/Health Resources and Services Administration and the federal project officer for the National Center for Fatality Review and Prevention cooperative agreement.

Guest Speaker: Angela Steel,* MPHE

Injury Epidemiologist in the Research Department at Safe Kids Worldwide

Guest Speaker: Elizabeth 'Tizzy' Bennett,* MPH

Director, Guest Services and Community Benefit at Seattle Children's Hospital

***More complete bios for the speakers are below.**

Why attend: Among unintentional injuries, drowning is a leading cause of death of children. Almost 800 children fatally drown each year between the ages of 0-17 in the United States. This webinar will highlight three settings in which many drownings occur – in and around the home; swimming pools; and open bodies of water. Age, gender, and race vary considerably according to each of these settings. Prevention strategies for each of these settings will be discussed. Fatality review data has been instrumental in shaping our understanding of fatal drownings.

Who should attend: CDR and FIMR coordinators and team members, facilitators, abstractors, interviewers

**State Level Fatality Review Advisory Boards in Action:
Best Practices for Establishing and Managing**

May 10, 2:00 pm – 3:00 pm EDT

Registration details to follow.

SPEAKERS

Diane Pilkey, RN, MPH

Diane Pilkey is a Senior Nurse Consultant at the Maternal and Child Health Bureau/Health Resources and Services Administration and the federal project officer for the National Center for Fatality Review and Prevention cooperative agreement. Diane has more than 20 years of experience in public health at the local, state and federal level, including the Washington State Department of Health, where she worked as an epidemiologist and the Child Death Review Assessment Coordinator. Diane is a registered nurse who has practiced in both clinical and public health settings in both urban and rural settings. Her work has focused on children and adolescents, injury and violence, infant mortality and early childhood. Diane has a Master's in Public Health from the Maternal and Child Health program at the University of Washington Public Health School, a Bachelors in Nursing from the University of North Carolina and a Bachelors in Cultural Anthropology from Duke University

Angela Steel, MPHE

Angela Steel is an Injury Epidemiologist in the Research Department for Safe Kids Worldwide. Before coming to Safe Kids, Angela worked for six years as a pediatric nurse on the Surgical Care Unit at Children's National Medical Center in Washington, D.C. She graduated from The Pennsylvania State University in 2005 with a Bachelor's of Science degree in Nursing and as a 2LT in the United States Army. After working in military and civilian healthcare settings for 10 years, she switched her focus from treating patients to preventing disease and injury. She returned to school at George Washington University in Washington, D.C., where she earned her Master's degree in Public Health Epidemiology.

Elizabeth 'Tizzy' Bennett, MPH, MCHES

Tizzy Bennett oversees Community Benefit at Seattle Children's Hospital. Ms. Bennett has led a number of drowning prevention and water safety programs including the Stay on Top of It campaign to increase life jacket use, Washington State Drowning Prevention Network, Everyone Swims and a statewide policy and systems change strategy.
