battered. Many CPS agencies rely on a battered mother's separation from a batterer to ensure safety. They may also be guided by the concept of "failure to protect". Both strategies can create more problems for adult and child victims. This workshop will introduce new tools for community teams of advocates and child protection workers to enhance CPS response to domestic violence. The tools help communities explore these critical questions:

- Do we know when battering is a factor in child maltreatment cases and its impact on the child and mother?
  - What do we know about the mother's strategies to protect her children?
  - Does our intervention enhance or weaken the mother's capacity to protect her children?
  - Does our intervention increase or decrease risk of harm from the batterer?
  - Is there more we can do to stop the batterer?
  - Does our intervention contribute to harmful, disparate outcomes for specific groups of people?
  - Does our intervention respect and support the culture of children and their mothers, yet still hold the batterer accountable?

1:00 pm – 2:00 pm	<p><i>Cyberbullying</i></p> <p>The students will touch upon the three topics, understand cyberbullying, why cyberbullying is different and what to do if you are being cyberbullied.</p>	Nixyaawii Youth Leadership Against Violence
2:00 pm – 3:45 pm	<p><i>Silence: The Voice of Complicity</i></p> <p>Stopping harmful speech and behaviors, by itself, is short sighted. What we don't say or do can be as harmful as our original actions. True personal accountability comes when we can honestly articulate or speak of the harmful effects our words and actions have on others and the community as a whole. What effects one member of a community affects the whole community.</p>	Don Chapin

9:45 am – 10:15 am	<p><i>Tribal Access Program; CTUIR's Experience</i></p> <p>The U.S. Department of Justice (DOJ) launched the Tribal Access Program for National Crime Information (TAP) in August 2015 to provide tribes access to <a href="#">national crime information systems</a> for both civil and criminal purposes. TAP</p>	Brent Leonhard

	<p>allows tribes to more effectively serve and protect their nation's citizens by ensuring the exchange of critical data across the Criminal Justice Information Services (CJIS) systems and other <a href="#">national crime information systems</a>. This presentation will discuss the TAP, its importance, and CTUIR's experience with implementing it.</p>	
10:15 am – 11:45 am	<p><i>The Impact of Domestic Violence on Native Children and Youth: Research and Response</i></p> <p>There is very little research on Native children specifically. However, while providing research on the emotional, psychological, social, and physical impacts of domestic violence on children as whole, this presentation will explore the historical and cultural aspects that need to be considered with creating response systems to address this issue. It is critical to understand this intersectionality when developing and implementing policies and practices aimed at supporting and assisting Native children and youth.</p>	Dr. Diane Gout

2:45 pm – 3:45 pm	<p><i>Obstacles to Safety and Autonomy</i></p> <p>An interactive exercise in building empathy and understanding for those who are seeking: Safety, Autonomy and Independence</p> <p>Often times community members and service providers unwittingly support or collude with offenders by asking, what seems to them simple questions like; why do victim / survivors stay in or return to a harmful relationship. This places blame on those being harmed, and minimizes the effects of harm on survivors and children.</p> <p>This exercise increases understanding of the many barriers (social, natural, cultural, political obstacles) that may impede or hinder a decision to seek Safety and Autonomy.</p>	Don Chapin
