# Introduction to the Forensic Experiential Trauma Interview

 BASIC

## What is FETI®?

Certified FETI® is the founding and governing body of the official Forensic Experiential Trauma Interview, a science and practice-based interviewing methodology informed by the latest research on the neurobiology of trauma and memory.

The Forensic Experiential Trauma Interview (FETI®) provides interviewers with a science-informed interviewing framework that maximizes opportunities for information collection and accurately documents the participant's experience in a neutral, equitable, and fair manner.

To read the full introductory paper on FETI, visit [www.certifiedfeti.com/intro-paper](http://www.certifiedfeti.com/intro-paper)

## About the Course

The Introduction to FETI® course provides instruction in two primary areas – the science and practice basis for the FETI® methodology and the official FETI Framework™ on how to correctly conduct a Forensic Experiential Trauma Interview.

The Introduction to FETI® course is the first step on the path to Basic Certification. At the core of the Introduction to FETI course is a comprehensive classroom experience taught by a Certified FETI® Advanced (CFP-A) instructor with significant industry and FETI® interviewing experience.

In addition to in-person, classroom training, the course encompasses an online component, which includes a library of information and online resources.
