

# MSI is proud to distribute - Patho3Gen Shoe Disinfection System

**Infection Control You Can Count On. The Shoe Sole Sanitizer is a Powerful and Reliable 24/7 Visible Sign of Safety for Your Facility.**

### Works in 6-8 Seconds

Allowing you to seamlessly integrate the shoe sanitizer into your protocols without compromising efficacy.

### Uses Ozone + UVC technology

Our patented technology yields superior disinfection rates. Where Ozone is the game-changer and results are over 110 times more powerful than UVC disinfection.

### Up to 99.999% kill rates

The shoe sanitizer has a 3-5log reduction with industry leading kill rates and 4.6 average log reductions in only 8 seconds.

### NSF Laboratories Tested + UL Certified

Independently tested and verified results for guaranteed efficacy and safety.

### Plug & Play functioning

Works right out of the box, giving you peace of mind with minimal effort.

### Requires no additional staff

Allowing you to focus on what you do best, while our technology works for you 24/7.

### Made in USA

Supporting our local economies and for dependable craftsmanship.
