

1. Roll Call

2. Welcome (Wendy Savakes)

3. Healthcare Products and Services

a. [Tricia Nihart](#)

- Throughout August, MMCAP Infuse members can receive a 10% discount on the newest styles from **Global Protection**, as well as on orders of ONE Move. These products are available through contract # MMS18015.
- **Redwood Toxicology (Abbott)**, contract # MMS14033, amendment 23 - is extended to 12/31/2020. All other drug testing negotiations are still in progress.
- MMCAP Infuse remains in negotiations with manufacturers and distributors on incontinence products.
- Lori Lumpkin is no longer with **McKesson**. Please refer all inquiries to: [MCK.MMCAP@McKesson.com](mailto:MCK.MMCAP@McKesson.com).
- There have been instances where **Henry Schein Medical** has increased some of the core item offerings. MMCAP Infuse is working on an amendment to add the increased items, but it has not been executed. Please check your invoices to make sure you are receiving the correct price.
- **Concordance** amendment #15 - additions made to core list, price increases on Medline products.

b. [Robbin Tschida](#)

- MMCAP Infuse is in negotiations with four (4) prospective **Animal Health** vendors. There is still time for members to provide us with their Top-100 animal health spend items. The program is being built from scratch and member input on the items they want included in the contracts would be valuable.
- New **dental contracts** are in place and ready to use. A few states are working on state-specific paperwork, and MMCAP Infuse is working with the vendors to have it completed before the old contracts terms expire at the end of August or September 2020.

4. Pharmaceutical Program

a. [Sara Turnbow](#)

- Negotiations continue on approximately 20 contracts out of the 165 contracts resulting from the 2020 Pharm and OTC RFP. Products on contract transitioned on July 1 and the continued negotiation of contracts should not affect products at the wholesalers. If there are any questions about products, please email [MMCAP\\_Infuse.Contracts@state.mn.us](mailto:MMCAP_Infuse.Contracts@state.mn.us).
- RFPs MMCAP Infuse is preparing for the remainder of 2020: naloxone product kitting (RFP is on the street now); nutritionals, contract price auditing, automated dispensing cabinets (in conjunction with MN OSP), and PSAO.

b. [Brandon Sis](#)

- **Sublocade** – an injectable form of buprenorphine for treatment of opiate use disorder. At this time, Indivior (the manufacturer) has authorized three (3) distributors: Henry Schein Medical, Besse Medical and CuraScript Specialty Distribution. The product was originally meant for delivery directly to a physician's office, which is why those distributors were chosen. MMCAP Infuse has negotiated a discounted price, starting out for just correctional facilities. We are still working out the specifics of how the contract is loaded with the distributors, most notably Henry Schein as many of you, our members, have accounts with them already. More details to follow.

- Pharmacy Equipment

Parata Systems – Automated Tablet Packager, pouch verification equipment, tablet splitter machines, and high-density storage solutions.

Swisslog Healthcare – Remote Dispensing System – InSite allowing a pharmacy to send verified canisters of medication to a remote site, nursing floor, separate facility, etc. and patient-specific medication pouches are released from a verified order from the pharmacy at the time they need them.

Details of both contracts are posted on the MMCAP Infuse legacy website. Click on the “Contracts” tab and scroll down to Pharmacy Equipment. A contract summary was planned, however, because the two agreements offer such different products, a head-to-head comparison is not appropriate. The procurement certification is posted.

You can obtain contact info for the vendors by contacting your [Senior Account Executive](#) or Brandon Sis.

5. Pharmacy Distribution Services and DSCSA ([Debra Lopez-Burandt](#))

- **Pharmacy Distribution Services:** Look to MMCAP Infuse News and legacy website for COG updates.
- **DSCSA:** Renewals for both rfXcel (contract # MMS18021) and Inmar-RXT, LLC, formerly known as RxTransparent – The Forerunner Group (contract # MMS18022) have been processed and are in place through 7/31/2021 for 3T Data Storing and Access on an annual subscription basis. Please contact your assigned [Senior Account Executive](#) or Debra López-Burandt if you have questions or want help in setting up an account with either of these vendors.
