

Now Available for Pre-book BD Veritor™ System for Rapid Detection of SARS-CoV-2

The BD Veritor™ Plus System is a handheld device that enables testing for Flu A+B, Group A Strep, and respiratory syncytial virus (RSV) assays. One-button functionality and workflow flexibility allow the healthcare team to confidently use the device. In addition, the system's fast and accurate results may help improve the patient experience. The BD Veritor™ Plus System streamlines the point-of-care testing experience.

The BD Veritor™ System for Rapid Detection of SARS-CoV-2 is a chromatographic immunoassay for the direct and qualitative detection of SARS-CoV-2 antigens in nasal swabs from patients with signs and symptoms who are suspected of COVID-19.

Please return the complete pre-book form to GMB-Front-End@cardinalhealth.com
