

# YOU ARE INVITED TO A PROJECT SHOWCASE

Cottage Grove, Oregon  
Sept. 5-6, 2008

## ALTERNATE PROJECT DELIVERY AND ACCELERATED BRIDGE CONSTRUCTION

Highways for LIFE is sponsoring a project showcase: the replacement of five substandard major structures on Oregon's Umpqua River Highway, a major corridor between Interstate 5 and U.S. 101 near Elkton, Ore. The Oregon Department of Transportation is replacing the bridges for a variety of reasons:

- Load ratings indicate a lack of sufficient capacity to carry permit vehicles
- Substandard bridge widths
- Repair costs for structural and functional deficiencies exceed one-half of the replacement costs
- To avoid a 50-mile detour for commercial vehicles

Attendees will also participate in a site visit to witness a rapid replacement bridge slide.

### Showcase registration and information:

- Please visit the Utah LTAP Web site at [www.utahltap.org](http://www.utahltap.org).
- Click on Highways for LIFE Project Showcase - Eugene, Ore.
- Check-in for the workshop will begin at 12:30 p.m. and presentations will begin at 1 p.m.
- There is no registration fee, but **you must be registered by Aug. 29** to attend.
- Please wear appropriate workzone attire.

If you have any other questions, please contact Pamela Pyle at [pamela.pyle@usu.edu](mailto:pamela.pyle@usu.edu) or (435) 797-2931.
