Harold Lasley, ODOT Technical Services Access Management Unit Manager, and Marty Jensvold, ODOT Region 1 Access Management Engineer, will present a four part overview of "What's new in access management?" Topics include:

- "Green, yellow and red letters": Informing stakeholders of upcoming projects and their impacts.
- NEW Technical Services Bulletin: ODOT's new bulletin on project stationing and review of the value of accessing ODOT's access management database.
- Access Management Fund: A matching fund that can be used to help fund unanticipated access management-related expenses on STIP projects. The fund is limited to \$200,000 per Region per biennium.
- Proposed changes to Division 51
