Meetings and Logistics

How satisfied are you with the current OGIC meeting schedule (timing, length, and frequency)?

 Copy

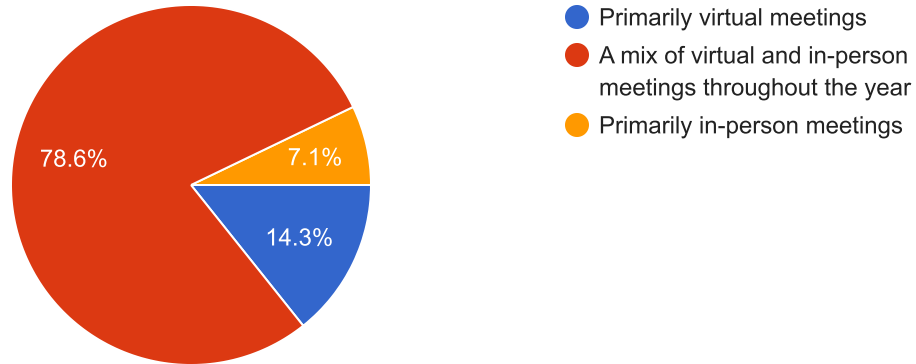

14 responses

What meeting format should OGIC prioritize next year?

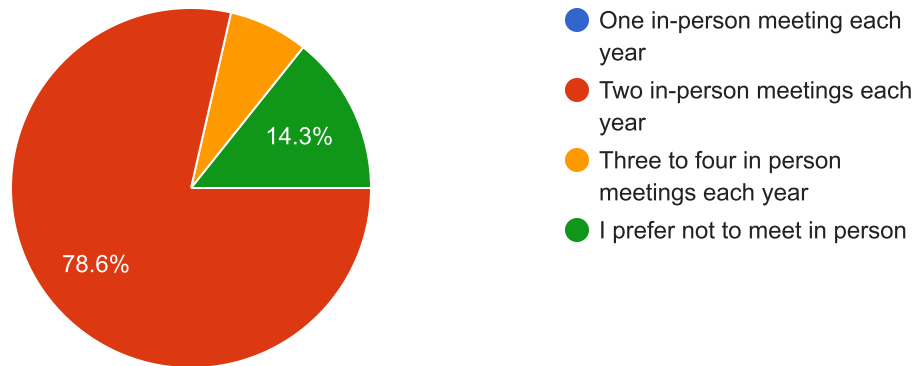

14 responses

If OGIC holds in-person meetings, what feels right?

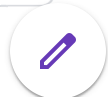

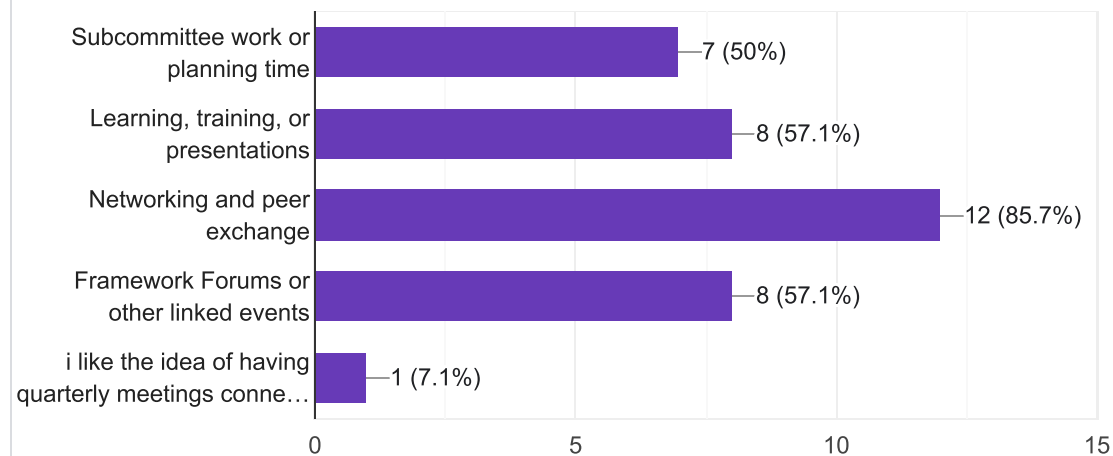

14 responses

What makes in-person meetings worth the time and travel? (select all that apply)

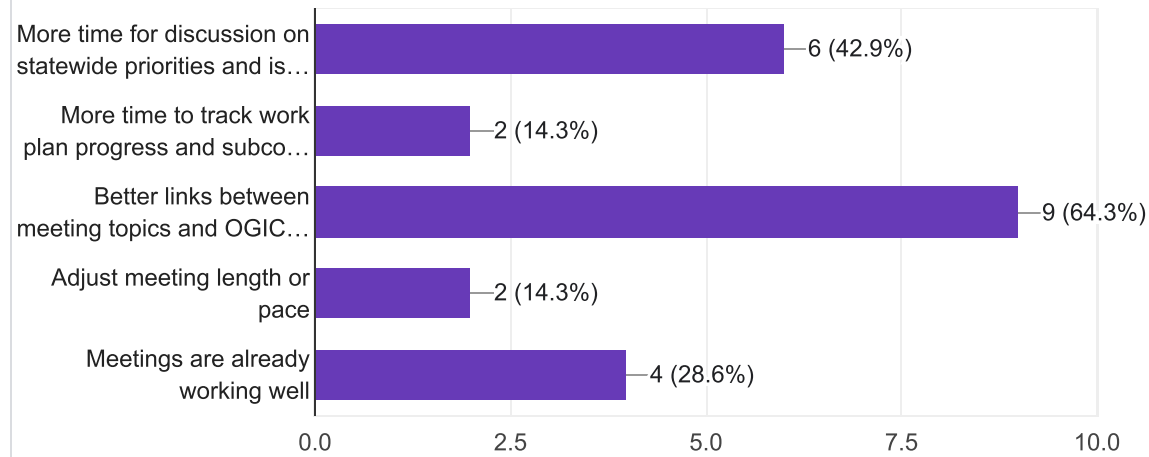

14 responses

What would improve meeting focus and productivity? (select all that apply)

14 responses

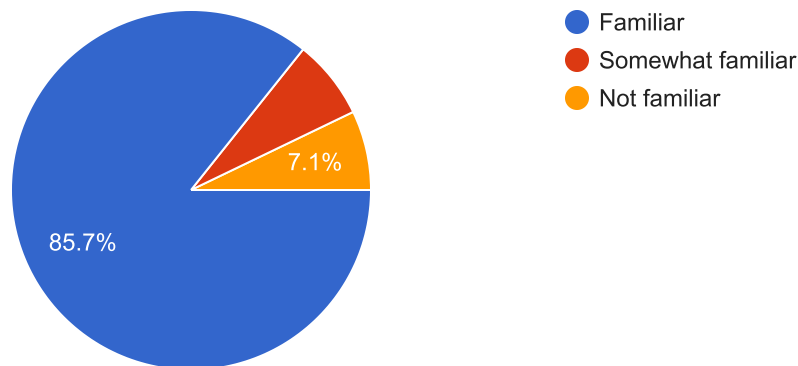

Shared Purpose and Strategic Direction

How familiar are you with OGIC's mission and statutory purpose?

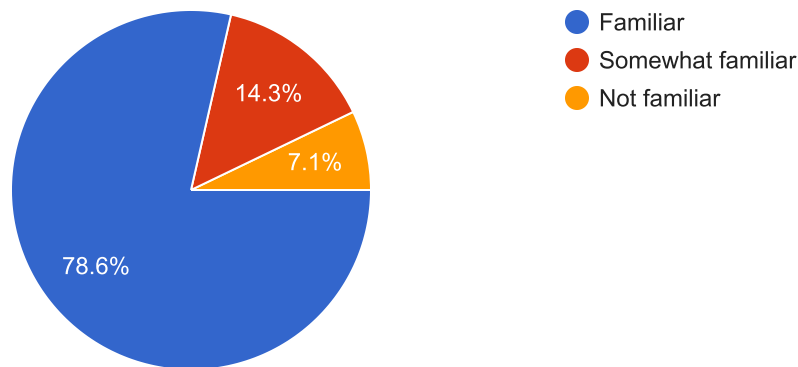

14 responses

How familiar are you with OGIC's strategic plan and work plan?

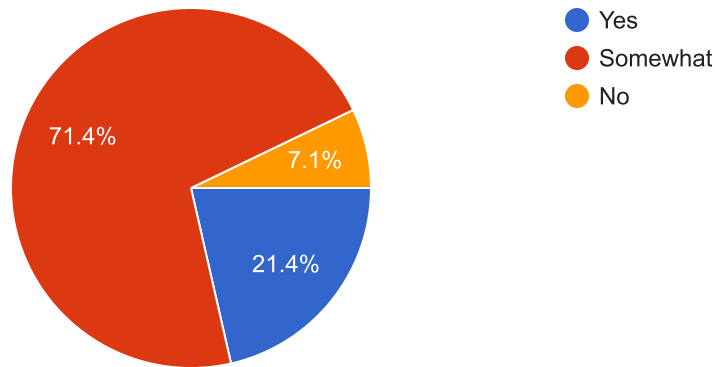

14 responses

Do you feel OGIC currently has a clear and shared direction for its work?

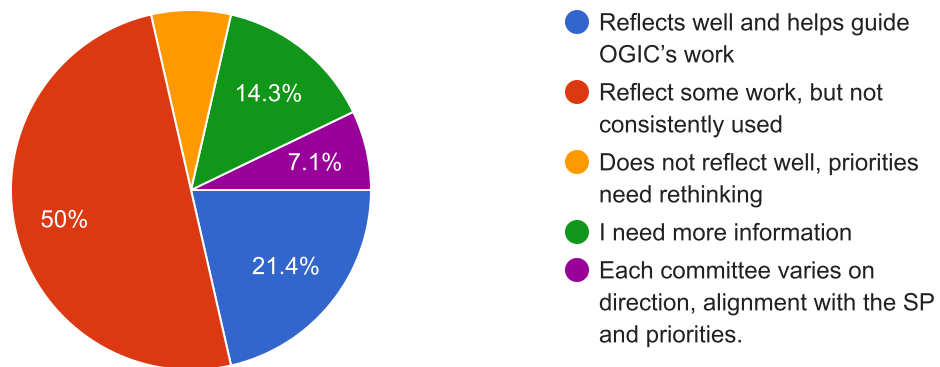

14 responses

How well do OGIC's strategic plan and work plan reflect and guide the committee priorities?

14 responses

Please list or describe any tasks or priorities that are missing or unclear in OGIC's work plan.

Enter "N/A" if OGIC tasks or priorities are clear and effective.

14 responses

N/A

As a newer member I don't have a good grasp on some of the tasks and priorities before I started. Any extra historical information would be appreciated in an abbreviated format.

Overall I think the workplan was on track, it just suffered from severe staffing capacity issues. While the Data Sharing and Governance committee was effective, it could have been given more support, to push more data sharing and governance priorities forward.

I think we still need more clarity as to exactly where OGIC has/does not have decision-making authority, and how we are expected to work with EIS and other "higher" entities.

A regroup is needed. The tasks and priorities are not missing or unclear. OGIC has had varied levels of success in regards to the effectiveness of committees.

I could use more clarity on where the roles of OGIC vs. GEO begin and end. Last spring, the former CDO said she was uncertain if it made sense for GEO to function as an active data aggregator (similar to Metro but at a state-wide level), and I'm also unclear if there is any intention to return to the parcels project. More clarity about all that would be much appreciated. I also wish the strategic plan included the priority data sets.

n/a

public body data sharing process regarding tax lots

NA

I would like to see more focused work plans that offer deliverable action items. If OGIC can work on deliverables, it would align our passion, value work, priorities. For instance, in a work plan we could include more details such as "address points standards have been approved, lets prioritize local government address data sharing into the framework". I don't think we clearly mark the actual deliverables, thus we found some confusion and misalignment for taxlots.

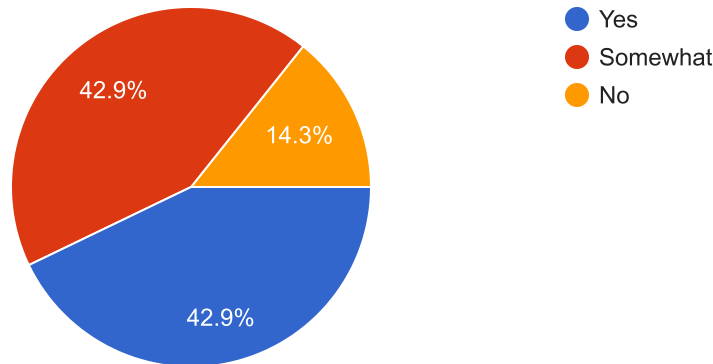

Roles, Onboarding, and Engagement

Do you feel clear on your role and how you can contribute as an OGIC member?

14 responses

Connection to Communities

I understand OGIC's connection to the Framework Program.

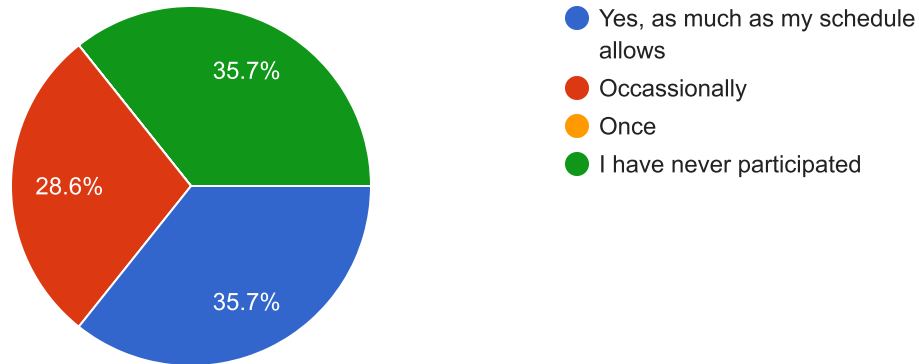

14 responses

I participate in framework theme meetings and forums.

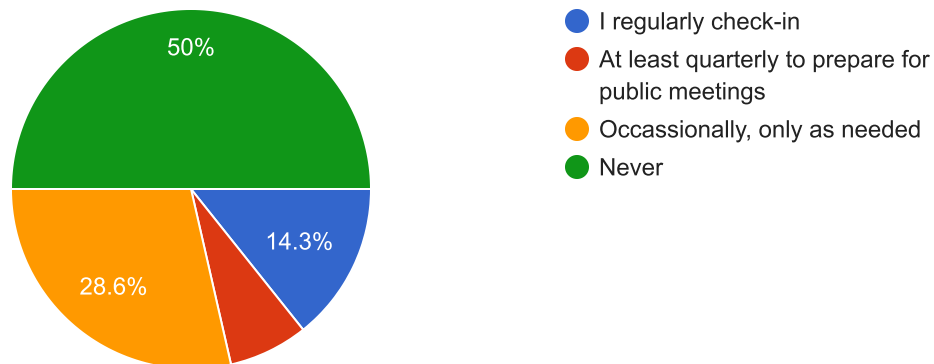

14 responses

I communicate with my Technical Advisory Committee representative.

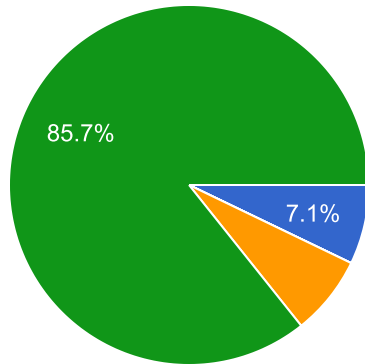

14 responses

I communicate with my Policy Advisory Committee representative.

14 responses

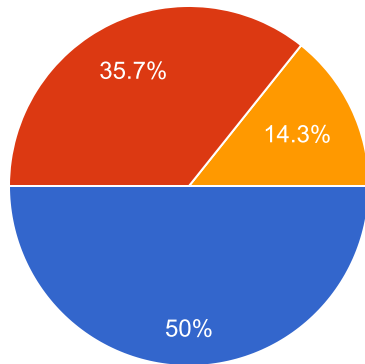

- I regularly check-in
- At least quarterly to prepare for public meetings
- Occassionally, only as needed
- Never

I understand the challenges and needs of the community I represent.

14 responses

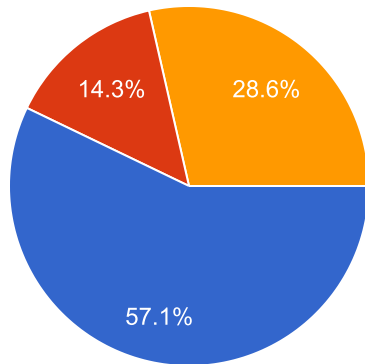

- Yes, I'm confident I understand the needs and challenges.
- Somewhat
- No, I'm not confident I understand the communities needs or challenges.

Leadership and Governance

Would you be interested in helping lead OGIC work (e.g., subcommittee leadership or planning efforts)?

14 responses

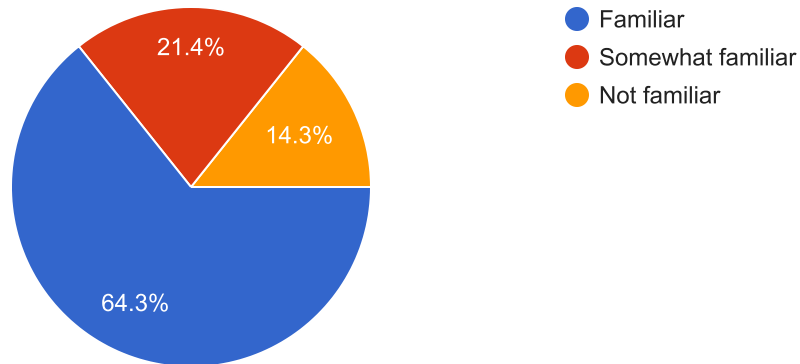

- Yes
- Maybe
- Not at this time

How familiar are you with what the Executive Committee does and how it supports OGIC's work?

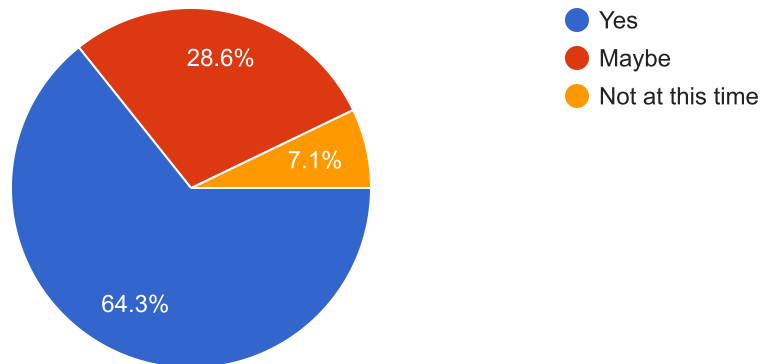

14 responses

OGIC's strategic plan and work plan sunset at the end of 2026. Would you be interested in helping shape the next strategic plan or work plan?

14 responses

Additional Feedback

Please comment and give us feedback on any topic.

5 responses

Thanks for all the teams work, it is appreciated.

Appreciate these efforts to identify areas for improvement. Thanks.

Thank you for hosting this survey. I look forward to seeing how OGIC will share and use these results to increase the effectiveness of OGIC and the various committees

Thanks for putting this together. I look forward to seeing the results and how we can use them to be a better council.

I'm excited to keep improving the great work done to-date. I do realize its lots of hard work with collaboration, communication, and the alignment of real work that can benefit all. I would like to further see an alignment of OGIC and geospatial data sharing and framework data tied to data strategies and statewide data work, as it can booster geospatial data capabilities and shouldn't be thought of in a silo.
