AGENDA ITEM 1: Consent Agenda

SUMMARY:

The Consent Agenda contains a list of items that are more administrative in nature and typically do not need any discussion by the Council. Use of the Consent Agenda allows OGIC to handle administrative items in a quick manner. Items on the Consent Agenda are not discussed by OGIC, and a single vote is used to approve all individual items at one time. If any item needs discussion, OGIC members should request an item be pulled from the consent agenda and handled separately.

The individual items on the Consent Agenda are:

- OGIC Technical Advisory Committee (TAC) Report
- GIS Program Leaders (GPL) Report
- Draft October 2025 OGIC Meeting Minutes – see supplemental document posted online

Additionally with the approval of the Consent Agenda, the OGIC chair will ask for agenda revisions and approval of the agenda for the meeting.

OGIC **WILL** be asked to make a decision on this item.

Oregon Chief Data Officer

Enterprise Information Services (EIS) is proud to announce the appointment of Nate Ramsey as Oregon's new Chief Data Officer. Ramsey started back in mid-November and will also serve as the Director of the EIS Data Governance and Transparency Program.

Ramsey brings extensive federal experience in advancing data utilization and governance. At the U.S. Census Bureau, he directed the Federal Statistical Research Data Centers network, coordinating restricted-use data access across agencies, universities, and Federal Reserve Banks.

He also supported major survey programs such as the American Community Survey, which guides funding and community planning. Previously, he worked at the U.S. Department of Education on higher education grant programs.

Raised in Salem and now living in Portland with his wife and two children, Ramsey holds a Ph.D. in Political Science. In his free time, he coaches his daughter’s softball team and is learning tennis.
