

WANT YOUR RURAL ORGANIZATION TO THRIVE?

JOIN COMMUNITIES ACROSS OREGON IN THE RARE PROGRAM

WHAT IS THE RARE PROGRAM?

The mission of the Resource Assistance for Rural Environments (RARE) program is to increase the capacity of rural communities to improve their economic, social, and environmental conditions, through the assistance of trained graduate-level participants.

RARE participants assist communities in the development and implementation of projects focused on improving rural economic conditions. Our members live and serve in rural communities for 11 months. The RARE program has placed more than 400 volunteers and served nearly every Oregon county.

DOES MY PROGRAM QUALIFY FOR RARE?

RARE communities are organizations that have identified specific needs in underserved rural areas. Eligible organizations include public agencies (including city, county, and regional governments); special districts (such as soil and water conservation districts, park and transportation districts); and also non-profit organizations.

RARE projects typically fall into four categories: natural resource development, community planning, food security/systems, and community and economic development.

HOW CAN MY AGENCY PARTICIPATE?

To host a RARE member, each participating community or agency must provide a \$20,000 match towards the placement, training, and support for the full-time RARE participant. RARE Program staff will administer the member's monthly stipend, medical insurance, and post-service educational award.

To apply, communities must submit a pre-application to the RARE office by 5:00 PM on April 18th. RARE AmeriCorps placements are contingent on availability of program funding.

2013-14 RARE PARTICIPANTS SERVE IN MANY OREGON COMMUNITIES INCLUDING...

SEASIDE, LA GRANDE
AND MILTON-FREEWATER

PENDLETON

GOLD HILL, ROSEBURG
PORT ORFORD, AND MORE!

UNIVERSITY
