Welcome to the 2021 Summer Reading Statistics survey. It continues to be a time of great change. We understand the numbers you provide may look very different than previous years. That is OKAY. Fill out what you tracked. If there is a question you don't know the answer to, please leave that question blank.

Please don't worry if you didn't collect a particular statistic and assume you need to collect it next year. These are the best questions we have at this moment in time, but we expect we may have better ones next year, and some of these may not work for you. Answer the best you can. One general rule: If you didn't break your statistics down by age, use the all ages category.

This survey should take approximately 20 minutes to complete and should be done only once per library. If you have questions, please contact Greta Bergquist at greta.bergquist@slo.oregon.gov
