## HERITAGE MANAGEMENT

### **POSITION AVAILABLE** **Senior Principal Investigator – Archaeologist** **Providence, RI**

Gray & Pape, a national and international cultural heritage management firm, is seeking a Senior Principal Investigator (PI) – Archaeology in our Providence office. This role is full time, regular status, salaried exempt. Expected salary range for this position is \$70,000-\$90,000, depending on experience, qualifications, and education. Gray & Pape offers a hybrid work environment with built in flexibility for days in the office.

#### **Summary of the Role:**

The Senior Principal Investigator-Archaeology is responsible for developing and managing the full spectrum of the firm's project and program related archaeological studies. Studies include, but are not limited to, archaeological, cultural, historical, and environmental research and context development; literature reviews and desktop assessments to support modeling and due diligence objectives; Phase I and II archeological resource identification and assessment; Phase III archaeological treatment plans, data recovery, and mitigation; archaeological, cultural, and historical artifact analysis; preparation of deliverables; and preparation of artifacts and records for curation. The person in this position functions as a project manager with a multi-project portfolio. They are responsible for maintaining strong client and agency relationships, and support marketing and business development.

#### **Key Duties:**

- Responsible for all aspects of project management and administrative responsibilities on multiple projects including personnel assignments, and schedules; client and agency relationships; and consultation support.
- Act as signatory, and where needed, permit holder, on all cultural heritage deliverables by meeting the technical qualifications of the Principal Investigator.
- Prepare project specific research designs, and work- and safety-plans.
- Oversee the successful completion of all phases of archaeological projects - reconnaissance/due diligence studies, Phase I surveys, Phase II testing, and Phase III mitigation.
- Manage project teams consisting of Principal Investigators, Archaeologists, Crew Chiefs, Archaeological Technicians, and other technical specialists and sub-contractors. Train and mentor junior staff.
- Direct the laboratory analysis and curation of archaeological, cultural, and historical artifacts.
- Use National Register of Historic Places Criteria to make justifiable significance evaluations and treatment recommendations related to archaeological resources.
- Participate in marketing and business development, prepare project specific budgets, and technical proposals.
- Develop and participate in public outreach programs to educate the public about the importance of archaeological resources and cultural heritage management, at the project, professional, and community levels.
- Show commitment to promoting equity and inclusion.
