

2008 OPIC Roundtable Meetings, ALERT and VFC Trainings

Planned and organized for you by:

Independent. Healthy. Safe.

Immunization providers and advocates —

Please join us for one of two annual roundtables and trainings coordinated by the Oregon Partnership to Immunize Children (OPIC). These annual meetings help fulfill OPIC's mission of facilitating the collaboration of public and private partners to protect children and adolescents against vaccine-preventable diseases.

OPIC, the Vaccines for Children (VFC) program, Oregon Immunization ALERT and the Oregon Department of Human Services Public Health Division Immunization Program form a natural partnership. The Oregon Adult Immunization Coalition (OAIC) also helps us reach our goals of providing statewide trainings and leveraging education resources.

Our immunization partners in Jackson and Lincoln counties provided the leadership and expertise to make these meetings possible.

Together, we are committed to educating providers, parents, caregivers, and our diverse communities across Oregon that immunizations are one of the most important ways to protect against serious vaccine-preventable diseases.

Nancy Church, OPIC Chair, Providence Health System

Mimi Luther, VFC Manager

Lorraine Duncan, Immunization Program Manager

Mary Beth Kurilo, ALERT Manager
