

30th OREGON EPIDEMIOLOGIST'S MEETING

May 29 – 31, 2013

Overarching themes and objectives for the Breakout Tracks				
Communicable Diseases	HIV/STD/TB	Preparedness	Health System Transformation	Public Health Information Technology
Paul Cieslak	Sean Schafer	Collette Young	Tom Eversole	Michelle Barber
<p>A) Explain the role of complaint systems in identifying foodborne disease outbreaks</p> <p>B) Describe Epidemiologists' (local, state, national) role in foodborne outbreak investigations</p> <p>C) Describe the protocol and expectations involved when disease outbreak investigations are "handed off" from counties to the state</p>	<p>A) Describe the limits and parameters of public health authority to compel HIV treatment.</p> <p>B) Describe gonorrhea isolate resistance surveillance and the public health implications of declining use of bacterial culture.</p> <p>C) Differentiate non-tuberculous mycobacterial disease from MTB.</p> <p>D) Evaluate cost effectiveness of 12-dose latent TB treatment.</p> <p>E) Describe medical and recreational marijuana use, number of face-to-face healthcare visits, and viral loads among HIV patients.</p>	<p>A) Identify the opportunities for public health surveillance before, during and after disasters</p> <p>B) Present timely epidemiologic evidence for public health emergency response planning</p> <p>C) Communicate the public health and health security value of syndromic surveillance to healthcare system partners</p>	<p>A) Describe Public Health's role in Oregon's transformed Health System</p> <p>B) Describe ways CCOs can support PH in conducting population-level interventions</p> <p>C) Describe ways LHDs can support CCOs in achieving successful clinical care referrals and outcomes</p> <p>D) Describe PH workforce development needs for a transformed health system</p>	<p>A) Understand capabilities of technical tools available for state and local public health</p> <p>B) Develop skills to use the suite of technical tools available for state and local public health use</p> <p>C) Provide technical assistance to state and local public health on Public Health Technology Suite</p>

Healthy Meetings Policy

Oregon Public Health is committed to creating a workplace environment that promotes health and prevents disease and injury. Oregon Public Health models this commitment by following current guidelines for providing healthy food and beverages in meetings and offering meeting participants the opportunity to take part in physical activity breaks.

Funding

Funding for this conference was made possible (in part) by the Centers for Disease Control and Prevention. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the US Government.
