CONTINUING EDUCATION AUDIT

The annual Continuing Education (CE) audit is underway. CE is a critical component of the Board's mission to protect the public health, safety, and welfare. The CE audit is conducted to determine if registrants are meeting the CE requirements listed in Oregon Administrative Rule (OAR) 806-010-0145. Each renewal cycle, eight percent of registered architects who submitted renewal applications are randomly selected for the CE audit. A letter was sent to selected registrants in late March with instructions regarding the audit requirements.

OSBAE would like to remind registrants that 24 hours of CE in architectural health, safety, and welfare (HSW) subjects is required to renew or reinstate an architect certificate of registration. Evidence of compliance must be maintained by the architect for a minimum of two years. Acceptable evidence of completion is a certificate or transcript that includes the name of the course provider, registrant's name, course title, completion date, and HSW hours received.

Please see [OAR 806-010-0145](#) for the details regarding CE, as well as the [flowchart](#) that is available on our website. It's important to note that failing to comply with CE requirements, or making false statements or misrepresentations related to CE activities, may result in disciplinary action by the Board. Thank you for your diligence in maintaining your CE records.

NCARB UPDATES

ARE® Rolling Clock Rollback!

After careful review and consideration, NCARB's Board of Directors unanimously decided to retire the rolling clock policy, which placed a five-year expiration date on passed divisions of the Architect Registration Examination (ARE®). The rolling clock policy will be replaced with a new score validity policy, which bases the validity of passed ARE divisions on exam versions (such as ARE 4.0, ARE 5.0, etc.) rather than a set time frame. NCARB will reinstate previously expired divisions of ARE 4.0 for candidates who are seeking licensure in jurisdictions that do not have a rolling clock-type requirement, which includes Oregon. For [details](#) please visit www.ncarb.org.

ARE® Practice Exams

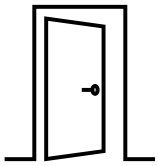

Six free ARE® practice exams, one for each division, are now available to all licensure candidates! While this resource was previously only available to those with active exam eligibilities, candidates can now access these practice exams at any time to help prepare for their next steps on the path to licensure. For more information, please visit [NCARB's page](#) on the free practice exams at www.ncarb.org.

WELCOME LORI DAVISON!

The Oregon State Board of Architect Examiners would like to welcome its newest Board member – Lori Davison. Former Governor Kate Brown appointed Lori to the Board in the Public Member role beginning November 1, 2022.

Lori has worked in the commercial and industrial design industry for the past 24 years, in both the private and public sectors. In private industry, Lori provided design and project management services for a civil and structural engineer taking projects from conceptual design through permitting and construction. For the past five years, she has served as a commercial building permit technician for the city of Bend providing project management and assisting customers through the city permitting and inspection process. Due to Lori's background and expertise, she is frequently called upon to assist in code determinations and process decisions.

Welcome to the Board Lori and thank you very much for your service!!

THANK YOU HEIDI BERTMAN!

OSBAE gratefully acknowledges Heidi Bertman who served as an architect member on the Board from September of 2021 to October 2022. Heidi's experience with public institutions and understanding of project due diligence was extremely valuable during the Board's discussions. We truly appreciate Heidi's service to the Board!

WE APPRECIATE OUR BOARD MEMBERS!!

IN MEMORIAM

The Board and staff extend condolences to the families and friends of those who have honored the architect profession.

❖ Gary J. Hartnett, Oregon

If you know of a person who should be recognized in this section, please notify us at architectboard@osbae.oregon.gov.

NEW BOARD OFFICERS

At its December meeting the Board elected Erica Ceder as the Chair and Tonie Esteban as the Vice Chair. Officers' terms are for one year and they are eligible to serve for two consecutive terms.

Many thanks to past Chair Don Eggleston for ably leading the Board over the last two years!

READY TO VOLUNTEER?

Consider the Oregon Safety Assessment Program!

The Oregon Safety Assessment Program (OrSAP) provides professional resources to local governments to help with the safety evaluation of buildings and infrastructure after a disaster. The goal of the safety assessment program is to perform these safety assessments as quickly as possible. Approved OrSAP personnel consist of professional engineers, **architects**, and certified building inspectors.

OrSAP is seeking architects to participate in this program as an evaluator. This role is essential in the first days after a destructive incident to evaluate the safety of potentially damaged structures. The skills you possess will be useful for the recovery of the community you are assisting.

Volunteers are a vital part of the OrSAP program. They are seeking qualified volunteers who want to be certified as a post-disaster safety evaluator, and have completed an approved OrSAP training course.

Once registration forms are received, credentials and training will be verified, and an OrSAP badge will be mailed to the address provided. An approved OrSAP refresher training must be taken every five years.

For any questions, email Kristin Guinn at Kristin.guinn@osp.oregon.gov. [Apply to be a volunteer here.](#)
