

## Listening Session for HERC's Disability Health Advisory Panel - August 14, 2024

The Health Evidence Review Commission staff will have a new advisory panel related to disability health beginning 2025. **The purpose of this advisory panel is to improve HERC research practices when considering treatments and services related to disability health and chronic diseases.**

HERC staff will hold a listening session on [August 14, 11:00am-12:30pm](#) related to this disability health advisory panel (DHAP). Staff are seeking feedback about the frequency, duration, and scope for this advisory panel.

We encourage members of the public with interest in serving on the DHAP to attend this listening session. There are no specific requirements for membership. NOTE: *staff will prioritize recruitment of Oregon Health Plan members with disabilities and chronic illnesses.* Please consider applying if you are:

- A person living with a disability or chronic illness
- A parent of a minor with disabilities
- A caregiver to a person with disabilities
- A health care provider caring for individuals with disabilities
- A representative of a patient advocacy organization
- A representative of a health plan that provides services for OHP members

If you are interested in learning more, please [join](#) this listening session as a first step. Application process details will be discussed at the end of this session.

### Accommodations and assistance

If you need assistance, please call Jessica Malstrom at (541) 975-3759 or email [HERC.Info@oha.oregon.gov](mailto:HERC.Info@oha.oregon.gov).

For people who speak a language other than English or people with disabilities, we can provide free help. All relay calls are accepted.
