

Oregon's Professional Development: Moving Math Education Forward 2009

- Would you like to **increase your understanding** of the new core math standards and new diploma requirements?
- Would you like **hands-on training** that will increase your ability and confidence to teach mathematical strategies?
- Would you like to develop your role more fully in **helping all children at every grade-level get ready for algebra**?
- Would you like to learn **high quality professional development strategies** you can share with other teachers?

Opportunity

- A two-day training for all participants
- An additional third day session for designated participants to receive specific training to become *Moving Math Education Forward* professional development providers
- A chance for team leaders to apply for *Oregon's Professional Development: Moving Math Education Forward Implementation Grant*

Locations and dates

- Central Oregon, June 16-18, 2009 – Sisters High School (Sisters)
