

NRTRC Announces First “Open Mic Forum”

The Impact of Licensure & Credentialing on Your Telehealth Program

Wednesday, July 29, 2009 - 11:00 PT
Format: Interactive Videoconference

The NRTRC is excited to invite you to the first in a series of “open mic” facilitated discussions for our members. With an unprecedented level of telehealth activities & funding opportunities, a number of persistent barriers are limiting potential growth in the delivery of clinical services.

This is an opportunity to:

- Receive a brief overview of licensure & credentialing issues impacting telehealth delivery
- “Sound off!” What’s working & what’s not in your region
- Discuss potential regional solutions

*Thelma McClosky Armstrong, Director
Eastern Montana Telemedicine Network*

Moderated by:

Thelma McClosky Armstrong has worked extensively to address interstate licensure with the National Governor’s Association, credentialing requirements with CMS and the American Telemedicine Association (ATA). As past President of ATA, she brings a comprehensive understanding of issues impacting the expansions of telehealth programs and services.
