

San Antonio, Texas
Henry B. Gonzalez Convention Center

NRTRC Regional Networking Event

Tuesday, May 18, 2010

12:00 p.m. – 1:00 p.m.

Convention Center, Room 210A

The Northwest Regional Telehealth Resource Center (NRTRC) was created in 2005 to advance telehealth in the Western Region. Representatives from 33 health care organizations in 8 states and the US-Affiliated Pacific Islands worked to develop a collective mission and vision, created a Board of Directors, by-laws, and a consortium to advance the concept of a multi-state Center. The Resource Center is hosting a meeting for their network members and to meet their new Executive Director, Christina Thielst. This meeting is open to representatives of telehealth networks in the states of Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, Wyoming and the US Affiliated Pacific Islands (American Samoa, Guam and the Mariana Islands).
