Format: Interactive Web-Conference

The NRTRC is excited to invite you to a series of “Open Mic” forums for our members. With an unprecedented level of telehealth activities & funding opportunities, a number of persistent barriers are limiting potential growth in the delivery of clinical services.

This is an opportunity to:

- Receive an overview of the Centers for Medicare Services reimbursement process
- Learn what your network can do to seek reimbursement for clinical services not currently reimbursed

After this forum and further discussion NRTRC will provide CMS with a list of 5 procedures to be included in the 2012 payment structure.
